

Deloitte GAF Generator Helping you stay GST - compliant

When GST was introduced in Malaysia, the Royal Malaysian Customs Department (RMCD) had recommended businesses enhance their systems to enable the production of a “GST Audit File” or GAF for short. The GST audit file was intended to make things simpler for businesses and the RMCD to share information for audit and ongoing compliance purposes.

However, many businesses have either not implemented the GAF or have a version that is no longer compliant. One of the critical reasons has been the cost, firstly in implementing and then secondly in continuously updating and upgrading to meet the change in requirements (there have been a number of changes in the past 12 months).

We are glad to inform you that Deloitte has developed its own proprietary tool, GAF Generator that can generate a GST compliant GAF, at a reasonable cost without the administrative headaches.

What is the GAF Generator?

The GAF generator allows the generation of a GAF File using a custom interface, without requiring any enhancement or upgrades to your existing systems. As part of our subscription service, we offer ongoing maintenance and updates, so you

would never have any concerns about your GAF being no longer compliant.

Why choose us?

The Deloitte GAF Generator offers the following advantages:

- Generate a compliant GAF that is easy to implement, up to date and non-intrusive.
- Handle both the generation and validation of your GAF files without sending data outside of the company.
- Allow your team to establish an efficient process for generating the GAF file using your accounting software data outputs.
- Prepare a list of potential errors that exist in the GAF file for you to examine. Importantly, the solution is developed and maintained by Deloitte.
- Available at competitive monthly and annual subscription rates which includes all maintenance and updates to the software
- The tool can be hosted on your own servers to allow you to generate a GAF or if you prefer, we can generate a GAF and provide this to you.
