

## Deloitte Academy 2017 calendar

Deloitte Academy is the training unit of Deloitte's Business Process-as-a-Service (BPaaS) with focus on international financial reporting standards(IFRS), business process, financial valuation, financial modeling, international public sector accounting standards(IPSAS), and international standards on auditing (ISA).

Our courses are designed to provide opportunity to expand knowledge base of employees, put them in a position to deliver high performance, and maintain efficient process. We plan our design our courses knowing that every training intervention should justify its cost. This we do by ensuring knowledge transfer, and follow up on delegates long after the program is completed.
