

Hybrid meetings are complex. However, they are the standard in the post-pandemic working place. Learn how to run highly effective hybrid meetings and prepare your team for this new way of working.

The complexity of hybrid conversations

There are several factors that get in the way of communicative inclusivity, resulting in virtual attendees feeling excluded and experiencing an unequal opportunity to participate in the conversation. If your organization creates the opportunity to work both at the office and from home, consider the hybrid conversation skills of your team.

Why?

After the Hybrid Conversation training, your team understands the principles underlying the complexity of hybrid conversations. They know how to make virtual attendees feel included and create communicative equality.

How?

In a 1.5-hour training we improve the hybrid conversation skills of your team by providing a theoretical background, listing do's and don'ts and practicing the new skills in a mock hybrid meeting.

The Hybrid Conversation Training
