# 1. Introduction

Rod Pardington and Barry Jordan of Deloitte were appointed receivers and managers of all the assets, property and undertakings of Dominion Finance Group Limited (“Dominion” or the “Company”) on 9 September 2008 by Perpetual Trust Limited (“the Trustee”) pursuant to a Trust Deed dated 14 May 1993 and amended 17 April 1997. The appointment was made under the powers contained in the Trust Deed.

On 15 May 2009, William Black and Andrew Grenfell of McGrath Nicol Partners (NZ) Limited were appointed liquidators of Dominion.

We set out below our report on the state of the Company affairs as at 9 March 2016 in accordance with section 24 of the Receivership Act 1993. This report should be read in conjunction with the receivers’ previous reports. A statement of receipts and payments is attached at Section 4.

## 2. Receivership Details

### 2.1 Events Leading up to the Appointment of Receivers

As a finance company, Dominion offered securities to the general public secured by debenture stock. Under New Zealand securities legislation, Dominion (the Issuer) was required to appoint a trustee to act on the behalf of all debenture holders. Perpetual Trust Limited was the trustee for Dominion. In late 2013 Perpetual Trust Limited applied for Court approval to retire as trustee of Dominion and to appoint Corporate Trust Limited (“the new Trustee”) to act as the new trustee of Dominion. In December 2013 the High Court at Wellington approved this application and Corporate Trust Limited was appointed as trustee of Dominion.

The Trustee’s role was to ensure that Dominion was operating in accordance with the terms of the offer in the investment statements, the prospectus, and the Trust Deed.

On 17 June 2008, Dominion suspended repayments of principal and interest to debenture holders and advised that it would be exploring options in respect of its repayment obligations to debenture holders. Dominion’s decision to suspend repayment of debenture stock as it fell due on maturity was a breach of the Trust Deed.

In the 12 week period following the suspension of repayments, Dominion’s initial focus was to try to achieve a plan for recapitalising the Company to enable it to continue trading. It then focussed on trying to develop a proposal for a moratorium while it wound down the loan book.

After a thorough review of Dominion’s position and proposal, the Trustee concluded that receivership was more appropriate for Dominion’s debenture holders.

Rod Pardington and Barry Jordan of Deloitte were appointed receivers and managers of Dominion on 9 September 2008.

## 2.2 Disposal of Property

Since appointment the receivers have been managing and realising the loan book of Dominion. Property securities have been realised. Action to realise loans has been successful, realising more than initial estimates based on registered valuations at the time of our appointment. We have reviewed and approved proposals for the realisation of a significant number of Dominion securities. The total loan and security realisations were approximately \$287m including GST. Approximately \$224m was repaid to first mortgagees. Further settlement funds of \$8m were applied to reducing debt owed to an unrelated finance company under the terms of Dominion's security sharing agreement supporting borrowings from that company.

Property realisation strategies were developed in conjunction with input from property experts. These have resulted in realisations for Dominion of \$508,502 in the period under review, and \$52.1m since our appointment.

We have evaluated recovery prospects from guarantors and conducted enforcement action which has realised \$46,862 in the period under review and \$2.4m since our appointment.

Given the confidential nature of Dominion's loan book, the receivers believe releasing specific details of loans and collections to date or other commercially sensitive information would materially prejudice the exercise of their functions and potentially the outcome for secured debenture holders. Accordingly, under Section 23(3) of the Receiverships Act 1993 the receivers omit specific details in this section.

## 2.3 Other Realisations

Claims against valuers, directors, and other financiers have been litigated and/or settled to realise \$9.63m including GST before costs.

## 2.4 Amounts Owing to Appointer (on behalf of secured debenture holders)

Dominion had 7,468 investments held by 5,937 debenture holders with approximately \$169.8m invested in secured debentures as at the date of receivership ("Debenture Stock"). All Debenture Stock is secured under a Trust Deed between Dominion and Perpetual Trust Limited dated 14 May 1993, as amended on 17 April 1997.

## 2.5 Amounts Owing to Other Secured Creditors

Dominion had arranged committed credit facilities with their bankers, Bank of Scotland International Pty Ltd ("BOS") and ASB Bank Limited ("ASB"), secured by Stock Security Certificates which rank equally with Debenture Stock.

The receivers' first report dated 9 November 2008 summarises all other security interests registered on the Personal Property Securities Register.

## **2.6 Amounts Owing to Preferential Creditors**

Dominion's preferential creditors were its employees whose claims related to salaries and accrued holiday entitlements. The amount owing at the date of appointment was approximately \$59,000.

The full entitlements have been distributed.

## **2.7 Amounts likely to be available to secured and other creditors**

Soon after our appointment we estimated returns of between 10 cents and 25 cents in the dollar to debenture holders with part of this being subject to realising recoveries from potential claims against directors and a favourable outcome for Dominion from a Court application regarding proceeds of realisations claimed by North South Finance under a security sharing agreement. Previous reports noted that this estimate resulted from a comprehensive review of security priorities combined with extensive independent formal valuation of loan securities by valuers experienced in each asset type and location. In some cases these were cross checked against real estate agent appraisals.

Realisation of the loan book is a substantial and complex exercise. Section 2.2 covers this in more detail.

All of Dominion's securities have now been realised. We noted at the time of our appointment that we would not fire sale difficult assets meaning that the timeframe for realising some challenging assets was extended in order to optimise realisations. In some cases actual or potential litigation delayed sales.

Realisations have exceeded our initial estimates and receivership distributions reached the lower end of our initial estimates in April 2012. Further distributions completed in December 2012, March 2014 and October 2015 brought total distributions to 17.5 cents in the dollar.

There may be one further distribution of up to 1 cent in the dollar which will likely be completed at the end of the receivership. The timing of this is subject to the resolution of a dispute with the Inland Revenue Department regarding mortgagee sale GST or the outcome of litigation and the extent of any work required once this is resolved.

We do not expect there to be any funds available for payment to Dominion's unsecured creditors.

### 3. State of Affairs

#### 3.1 Assets Comprising the Property in Receivership

The assets of Dominion principally comprised its loan receivables. The equipment usual for finance company operations (such as leasehold improvements, office equipment, fixtures and fittings) did not represent a significant proportion of total assets.
