

# We know the continuum of care.

Offering solutions to manage the financial and operational needs of acute and post acute care providers.

# Why Workday.

Workday was founded on a disruptive idea: to put people at the center of enterprise software. Now, more than 12 years later, we still deliver on that idea every day.

Our first healthcare provider customer went live in 2009 and today we serve healthcare organizations across the entire continuum of care ranging in size from 400 employees to 120,000 employees.

If our customers are not successful, Workday will not be successful. Workday achieved an industry-leading 98 percent customer satisfaction rating this year. Additionally, industry analyst KLAS named Workday 2018 Best in KLAS for ERP and Category Leader for Talent Management.

# All your applications. All in one system.

One easy-to-maintain system so you can plan, simplify complex processes, and gain complete insight into your health operations.

## Get the whole picture.

Workday ensures complete enterprise visibility with a single system for finance, supply chain, and HR. Our user-friendly applications arm decision-makers with the insight they need, when they need it, to drive the business forward.

“ Workday has empowered the member organizations we serve. Associates have the information they need. Business processes are shored up. We have a trusted data source and are confident in that information. And when you have confidence, you can make better, more informed business decisions.

# Be ready for anything.

Today's healthcare climate is one of constant change. That's why we built our system to be infinitely flexible, enabling customers to respond faster and more effectively to change. Whether it's executing organizational changes, complying with new regulations, or opening new sites – it all can be done seamlessly.

“ Workday is a scalable system with the flexibility to respond quickly to Ochsner's strategic vision around growth.

## Partner for long-term success.

At Workday, we know growth isn't just about getting bigger. It's about getting smarter. Our customers are pursuing growth in all forms, from fast-paced expansion to strategic shifts that give them a market advantage. With Workday, our customers have a partner to help them prepare for the future.

“ We've gone from one to 55 sites in 5 years, and plan to have 71 by the end of the year. What's great is we can now replicate site economics for every clinic. Workday Financial Management has been key, as we can quickly set up a new entity, with all the accounting infrastructure in place, for each new location.

*CFO*

### Employees
