## **Accounting & Internal Controls**

#### **Elevating internal controls risk management**

In a fast-moving, unpredictable world, long-standing structures often struggle to keep up. Develop innovative solutions within your accounting and internal controls, build trust and discover new digital opportunities, with us at your side.

IT & Specialized Assurance

We can assist you in gaining assurance over your IT infrastructure, ERPs, applications, data systems and extended enterprise—building trust between technology and business controls.

Internal audit

Through innovative methods, advanced analytics, and labs, we can help you transform your internal audit function. We can help you deliver assurance and advise on critical business issues, anticipating risks.

**Digital Controls** 

We can help you manage the risk associated with controls, helping you strengthen existing technology, and continuously monitor your control systems using analytics, automation, AI and algorithms.

Controllership, Accounting & Reporting

We can elevate your accounting operations, workforce and infrastructure. From technical and operational accounting to enhanced reporting, analytics, and enterprise resource planning (ERP), we can support your finance transformation.

**Treasury** 

Our treasury solutions enable teams to have critical conversations. We can support you across executive transitions, financial distress, regulatory compliance, M&A, and technology programs.

## Cyber & Strategic Risk

### Face the future with confidence with our cyber security services

In today's increasingly complex world, resilience is one of the most valuable assets for an organization. Through Third Party Risk Management (TPRM) and Extended Enterprise we can help you reimagine it and design your plan of action. With us by your side, you can get out in front and reduce the impact of unseen events and the frequency with which they hit.

#### Cyber

Build a smarter, more connected future with our technological innovations and comprehensive solutions. We advise, implement and operate a wide portfolio of cyber solutions and services.

#### Crisis & Resilience

We design the processes and services to help you assess and monitor risks that could cause crises, prevent, and avoid possible challenges, and establish response plans for potential obstacles.

#### Climate & Sustainability

We can help you meaningfully embed environmental, social, and governance (ESG) considerations into your operations to accelerate your transformation to net-zero, navigate increasing pressures from stakeholders, and build a more responsible and sustainable business.

#### Strategy, Brand & Reputation

Your organization should have the right insights, best-in-class corporate governance, and a risk culture aimed at driving value. We can work side-by-side to help you achieve your business objectives.

#### **Extended Enterprise**

We can help organizations evaluate and manage the risks associated with third parties (outsourcers, licensees, alliances, suppliers), maximizing performance and limiting operational, financial and legal risk through point-in-time and ongoing managed service solutions.

## Regulatory & Legal

#### **Creating responsible businesses**

Emerging new technologies, constantly changing regulations and ever-evolving business needs shift the ground beneath your feet. We can support you to identify and manage risks and issues in advance, use technology to your advantage and free up your resources to focus on creating a secure future.

#### Regulatory Strategy

We can assist in regulatory Strategy Assessment, to address current and emerging requirements and challenges. We help develop strategies and frameworks, so you can be proactive in managing and reducing regulatory risk, with clear governance processes and operating models.

#### Compliance

Our specialists carry out compliance monitoring, testing, analytics and reporting. We can help you improve oversight of your regulatory and compliance risk to preserve your organizational value.

#### Regulatory Response

Using data and analytics, we can support your responses to specific breakdowns in regulatory compliance programs, which are often driven by actual, or the prospect of, regulatory censure.

#### **Financial Crime**

We can help you develop, implement, and remediate Financial Crime Risk Management programs; we assist in combating fraud, corruption, litigation, disputes, money laundering, and other financial crimes.
