

**Change the world,
not who you are.**

What impact will you make?
www.deloitte.com/pk

Deloitte drives progress. Our extensive service spectrum of auditing, tax consulting, business consulting and corporate finance consulting enables us to help clients become leaders wherever they choose to compete. Deloitte invests in outstanding people of diverse talents and backgrounds and empowers them to achieve more than they could elsewhere. Our work combines advice with action and integrity. We believe that when our clients and society are stronger, so are we.

Associate

Forensic Services

Location: Karachi

WORK YOU WILL DO:

Deloitte Forensic professionals specialize in financial investigations and litigation support. Be proactive in implementing decision making by engagement leadership. Play supporting role to the Manager / AM in forensic engagement planning, economics, and billing. Our professionals rely on our global network, deep industry knowledge and leading edge technologies to collect and analyze data and the evidence required to confirm or refute allegations. Your role will form part of the forensic team, focusing on engagements related to fraud investigations, anti-money laundering, sanctions, bribery and corruption, and conduct matters.

Exciting tasks await you

- Prepare and execute work plans for forensic accounting investigations, fraud investigations and dispute engagements.
- Perform data analytics relevant to the investigative issues.
- Prepare schedules, tables and charts to summarize financial analysis and findings.
- Work in a team environment on multiple client assignments.
- Maintain a good working relationship with people across all levels (leaders, peers and clients) and work with client management and staff at all levels to perform services.
- Assemble, maintain, and finalize working papers with minimal supervision.
- AML investigations and due diligence, helping clients navigate and resolve crisis by providing data-driven and insight-enabled mitigation strategies that minimize disruption. Perform analysis on samples and interpret results, summarize, analyze, and prepare analysis reports and findings in a clear and concise manner.
- Independently conduct research on technical accounting issues.
- Perform analysis of accounting and financial issues in relation to forensic investigations and commercial damage claims. Identify issues and anomalies in data and effectively communicate such issues to team members.

You possess the following skills and experience

- CA (part qualified) / ACCA qualified or Masters in Accounting required.
- 3-4 years of prior experience in audit or accounting related field.
- Ability to work with large data sets efficiently. Prior experience with data analytics a plus.
- Additional Certification like CFE would be preferred and added advantage to the candidate.
- Excellent MS Office, analytical, research, and organizational skills.
- Use problem solving skills to provide alternative explanations to intricate issues.
- Ability to multi-task and prioritize demanding projects
- Strong technical accounting skills with knowledge of IAS/IFRS.
- Inquisitive mind that asks why and how; Willingness to take the extra step and ask the next question.
- Travel may be required.
