Deloitte Pakistan is a member of Deloitte Touche Tohmatsu Limited (DTTL), one of the largest professional services organizations in the world, with a workforce of 264,000 people in more than 150 countries. The firm was established in 1972 and it has become one of the leading professional services firms in Pakistan. The firm is providing services to over 500 clients including both multinational and local companies.

Our Purpose

Every day we challenge ourselves to do what matters most— for clients, for our people, and for society. We serve clients distinctively, bringing innovative insights, solving complex challenges and unlocking sustainable growth. We inspire our talented professionals to deliver outstanding value to clients, providing an exceptional career experience and an inclusive and collaborative culture. We contribute to society, building confidence and trust in the markets, upholding the integrity of organizations and supporting our communities.

Our shared values guide the way we behave to make a positive, enduring impact:

- Integrity
- Outstanding value to markets and clients
- Commitment to each other
- Strength from cultural diversity

Deloitte Pakistan is planning to bid for the Karachi Neighborhood Improvement Project for providing the Monitoring and Evaluation Services : The objective of this Consultancy is to assist KNIP (i) to track implementation progress, implementing agency performance and results, (ii) to enable them to track physical and financial progress of the Project.

The Consultancy will enable monitoring activities and evaluating performance of the Project Activities during the project duration and provide the inputs for the Result Framework which includes Project Activity Indicator, Baseline Indicator, End-Target, Data Source/ Methodology and Responsibility for Data Collection .

Design, Engineering & Construction Monitoring Specialist

Engaging tasks await you to

- Develop Comprehensive M&E Framework and Project Monitoring Information System (PMIS) for collecting field data for mid-term and end of project impact evaluation
- Prepare a baseline for various indicator as indicated in order to have a meaningful impact evaluation at the later stage.
- Assist in developing a robust methodology for calculating/ measuring the indicators in Result Framework.
- Evaluate the physical progress of the project on an ongoing basis, and all the project areas must be monitored.
- Develop monitoring plan that will include specific indicators and parameters for site visits and facilitation .
- Perform Mid-Term Evaluation of the project to ascertain the outcome, success level and impact of the project on stakeholders, based on the indicators listed in the Results Framework.
- Document and disseminate lessons learned from project design and implementation, to support ongoing adjustments and corrections in sub-project design

You possess following skills and experience

- A degree in Civil or Structural Engineering, Architecture or relevant technical subjects is required .
- Minimum 8 years of professional experience in the relevant field of civil engineering, especially in preparation of construction technical documentation and in supporting the design and execution of baseline surveys in the project areas and developing project indicators .
- proven ability to develop simple reporting formats to be used in collecting data, and training staff in the monitoring and evaluation system of the project.
