

**Change the world,
not who you are**

What Impact will you make?
www.deloitte.com/pk

Deloitte drives progress. Our extensive service spectrum of auditing, tax consulting, business consulting, and corporate finance consulting enables us to help clients become leaders wherever they choose to compete. Deloitte invests in outstanding people of diverse talents and backgrounds and empowers them to achieve more than they could elsewhere. Our work combines advice with action and integrity. We believe that when our clients and society are stronger, so are we.

Deloitte Pakistan is a member of Deloitte Touche Tohmatsu Limited (DTTL), one of the largest professional services organizations in the world, with a workforce of 264,000 people in more than 150 countries. The firm was established in 1972 and it has become one of the leading professional services firms in Pakistan. The firm is providing services to over 500 clients including both multinational and local companies.

Deloitte Pakistan is planning to offer consultancy services for the Program Management Unit, Municipal Services Delivery Program Planning & Development Department Government of Sindh for Local Government Strengthening Activity "LGSA." The overall goal of the LGSA is to increase capacity of Jacobabad Municipality to provide effective, sustainable, and quality municipal services, including clean drinking water supply, safe management of effluent water and solid waste disposal. In addition to these objectives, similar trainings will be imparted to other Northern Sindh towns which fall under MSP ambit.

Operation & Maintenance Engineer

Exciting tasks await you

- Assess current systems of operation and maintenance and their shortcomings.
- Work closely with the project GIS and MIS specialists to develop a register of existing municipal assets.
- Work closely with the project GIS and MIS specialists to develop a computerised assets register linked to the MIS and GIS systems
- Develop systems to support the introduction of both routine and periodic maintenance programs
- Identify staffing requirements, additional training and (as necessary) contractual arrangements to support these programs

You possess the following skills and experience

- Master Degree in Information Technology or Software Engineering
- Experience of working with donor programs and government in developing operation and maintenance systems designed to improve standards of routine and periodic maintenance of infrastructure and services.
- Strong track record of having worked with local governments in the introduction of operation and maintenance systems.
- Experience of working in the devolution and decentralization context is important.
