

Blockchain step-by-step

1. The transaction is carried out

2. All members of the Blockchain are informed

3. Community members check all information on the operation

4. The network of users confirms each new block

5. The block is added to the chain

Each block has its own unique „signature“, called a hash, which is a string of numbers and letters that act as a “digital fingerprint” of the block.

Deloitte.

Deloitte provides audit, tax, consulting, financial advisory and legal services to public and private clients spanning multiple industries. With a globally connected network of member firms in more than 150 countries and territories, Deloitte brings world-class capabilities and high-quality service to clients, delivering the insights they need to address their most complex business challenges.

Deloitte professionals are unified by a collaborative culture that fosters integrity, outstanding value to markets and clients, commitment to each other and strength from diversity. They enjoy an environment of continuous learning, challenging experiences, and enriching career opportunities. Deloitte's professionals are dedicated to strengthening corporate responsibility, building public trust, and making a positive impact in their communities.

Deloitte refers to one or more of Deloitte Touche Tohmatsu Limited, a UK private company limited by guarantee (“DTTL”), its network of member firms, and their related entities. DTTL and each of its member firms are legally separate and independent entities. Please see www.deloitte.com/pl/onas for a more detailed description of DTTL and its member firms.
