Deloitte.

Deloitte refers to one or more of Deloitte Touche Tohmatsu Limited, a UK private company limited by guarantee ("DTTL"), its network of member firms, and their related entities. DTTL and each of its member firms are legally separate and independent entities. DTTL (also referred to as "Deloitte Global") does not provide services to clients.

Please see www.deloitte.com/pt/en/about for a more detailed description of DTTL and its member firms.

Deloitte provides audit, consulting, financial advisory, risk management, tax and related services to public and private clients spanning multiple industries. With a globally connected network of member firms in more than 150 countries and territories, Deloitte brings world-class capabilities and high-quality service to clients, delivering the insights they need to address their most complex business challenges. Deloitte's more than 225,000 professionals are committed to making an impact that matters.

This communication contains general information only, and none of Deloitte Touche Tohmatsu Limited, its member firms, or their related entities (collectively, the "Deloitte Network") is, by means of this communication, rendering professional advice or services. Before making any decision or taking any action that may affect you, you should consult a qualified professional advisor. No entity in the Deloitte network shall be responsible for any loss whatsoever sustained by any person who relies on this communication.

Our Services

The Telecom Engineering EMEA Centre of Excellence offers engineering services for mobile, fixed and convergent telecom networks, service platforms and operating support systems (OSS).

Our services cover the entire life cycle of a telecommunication network, service platform and OSS, from strategic and operational planning, to implementation and maintenance.

Our experts work all of the network components from the mobile and fixed access to transmission and core.

We are permanently working with the world's most relevant telecom operators and for companies where business strongly relies on a telecom network.
