

Data Protection Officer (DPO)
Training Bundle
Official IAPP Training and Certification

The General Data Protection Regulation (GDPR) requires that many organisations appoint a Data Protection Officer (DPO). The International Association of Privacy Professionals (IAPP) estimates that more than 75,000 DPOs will be required in the coming months.

Are you DPO Ready? Whether you are taking your first step of awareness, or are ready for certification as a Data Protection Professional, Deloitte is here to help you along the way.

General Information

The Data Protection Officer Bundle Course runs over four consecutive days, being comprised of two independent courses (CIPP/E + CIPM), but when taken together, they form the best fit to prepare for the Data Protection Officer (DPO) position.

The training is seasoned with lots of different business scenarios as well as practical tools you can take home for immediate use on the job. Each day, a number of useful tips will be given to help you with the exam afterwards. Deloitte is an official Authorized Consultant Training Partner for the International Association of Privacy Professionals (IAPP), thus offering official training sessions, which include:

- **Official courseware**
- **Official instructors (with actual professional experience)**
- **Certification examination vouchers (for both CIPP/E & CIPM)**
- **Exam preparation decks**
- **1 year IAPP Membership**

Course description

Certified Information Privacy Professional/Europe (CIPP/E)

Principles of Data Protection in Europe covers the essential pan-European and national data protection laws, as well as industry standard best practices for corporate compliance with these laws. Those taking this course will gain an understanding of the European model for privacy enforcement, key privacy terminology and practical concepts concerning the protection of personal data and trans-border data flows.

The training is based on the body of knowledge for the IAPP's ANSI accredited Certified Information Privacy Professional/Europe (CIPP/E) certification program.

What You'll Learn?

- Introduction to European Data Protection
- European Regulatory Institutions
- Legislative Framework
- Compliance with European Data Protection Law and Regulation
- International Data Transfers

Target audience:

- Data Protection Officers
- Data Protection Lawyers
- Records Managers
- Information Officers
- Compliance Officers
- Human Resource Officers
- Anyone who uses, processes and maintains personal data

Prerequisites:

None

Certified Information Privacy Professional/Europe (CIPP/E)

- Law and regulation based on the GDPR: The “What” of data protection in Europe

Course description

Certified Information Privacy Manager (CIPM)

Principles of Privacy Program Management is the how-to training on implementing a privacy program framework, managing the privacy program operational lifecycle and structuring a knowledgeable, high performing privacy team. Those taking this course will learn the skills to manage privacy in an organization through process and technology—regardless of jurisdiction or industry.

The Principles of Privacy Program Management training is based on the body of knowledge for the IAPP's ANSI accredited Certified Information Privacy Manager (CIPM) certification program.

What You'll Learn?

- How to create a company vision
- How to structure the privacy team
- How to develop and implement a privacy program framework
- How to communicate to stakeholders
- How to measure performance
- The privacy program operational lifecycle

Certified Information Privacy Manager (CIPM)

- Implementing privacy in an organization: The "How" of privacy from a management perspective

Target audience:

- Data Protection Officers
- Data Protection Managers
- Auditors
- Legal Compliance Officers
- Security Manager
- Information Managers
- Anyone involved with data protection processes and programs

Prerequisites:

None

Course content / topics

Certified Information Privacy Professional/Europe (CIPP/E)

Module 1: Data Protection Laws

Introduces key European data protection laws and regulatory bodies, describing the evolution toward a harmonised legislative framework.

Module 2: Personal Data

Defines and differentiates between types of data, including personal, anonymous, pseudo-anonymous and special categories.

Module 3: Controllers and Processors

Describes the roles and relationships of controllers and processors.

Module 4: Processing Personal Data

Defines data processing and GDPR processing principles, explains the application of the GDPR and outlines the legitimate bases for processing personal data.

Module 5: Information Provision

Explains controller obligations for providing information about data processing activities to data subjects and supervisory authorities.

Module 6: Data Subjects' Rights

Describes data subjects' rights, applications of rights and controller and processor obligations.

Module 7: Security of Processing

Discusses considerations and duties of controllers and processors for ensuring security of personal data and providing notification of data breaches.

Module 8: Accountability

Investigates accountability requirements, including data protection management systems, data protection impact assessments, privacy policies and the role of the data protection officer.

Module 9: International Data Transfers

Outlines options and obligations for transferring data outside the European Economic Area, including adequacy decisions and appropriate safeguards and derogations.

Module 10: Supervisions and Enforcement

Describes the role, powers and procedures of supervisory authorities; the composition and tasks of the European Data Protection Board; the role of the European Data Protection Supervisor; and remedies, liabilities and penalties for non-compliance.

Module 11: Compliance

Discusses the applications of European data protection law, legal bases and compliance requirements for processing personal data in practice, including employers processing employee data, surveillance, direct marketing, Internet technology and communications and outsourcing.

Trainers

Cristina Iacobescu (trainer CIPP/E) –

lawyer at Reff & Associates, Member of Deloitte Legal Romania

Cristina is a lawyer, member of the Bucharest Bar since November 2012 and a member of the Deloitte team in October 2016.

Cristina represented clients in numerous projects that involved analyzing and issuing recommendations on compliance with commercial regulations, with particular emphasis on areas such as personal data protection and e-commerce.

Her experience in data protection includes client advice on the development of individualized Gap Assessments according to the specific industry, as well as on the implementation of data protection procedures, information notes or other relevant documents. In addition, Cristina has also provided specialized advice in relation to the data protection area in electronic communications.

Andreea Diana Bîră (trainer CIPP/E) –

lawyer at Reff & Associates, Member of Deloitte Legal Romania

Andreea is a lawyer, member of the Bucharest bar since November 2015 and a member of the Deloitte team since October 2013.

Andreea has gained experience in the field of corporate law, consumer protection, data protection and intellectual property by assisting a vast range of local and multinational clients in relation to their activity in Romania.

Her experience in the field of data protection includes assisting client in front of the Romanian Data Protection Authority, preparing gap analysis individualized based on the industry of the client, as well as offering assistance in the implementation process of the relevant data protection procedures, privacy statements or other such documents. The assistance offered to clients concerned both the national legislation implementing the Data Protection Directive and the General Data Protection Regulation.

Adrian Munteanu (trainer CIPM) -

Professor, Alexandru Ioan Cuza University and President of IAPP Romania, also trainer at Deloitte Academy Romania.

Adrian is the President of IAPP Romanian Chapter, a Certified Information Privacy Manager (CIPM), Computer Information Systems Auditor (CISA), Certified in Risk and Information Systems Control (CRISC), COBIT Foundation Certificate, ITIL Foundation Certificate and has graduated the Faculty of Economics and Business Administration in the “A. I. Cuza” University of Iași. He is also a PhD Professor at the Business Information System Department.

Starting 2003 he got involved in information systems audit projects, security consulting services and ITC education for private companies, public services suppliers and banking. In 2007 he was a Trainer Service Provider for ISACA Romanian Chapter (www.isaca.ro). His interests include Information Systems Auditing, Information Systems Security and IT Governance and Service Management.
