

## IASB proposes amendments to IAS 1 to clarify the criteria for the classification of a liability as either current or non-current

### Why are the amendments being proposed?

The amendments proposed in the ED result from a request received by the IASB to clarify the criteria for the classification of a liability as either current or non-current.

The issue raised was whether the classification requirements in paragraph 69 of IAS 1 were consistent with the circumstances detailed in paragraph 73.

The submitters questioned how having an unconditional right to defer settlement (specified in paragraph 69(d)) reconciled with having the discretion to refinance or roll over an obligation (specified in paragraph 73) as two bases for the classification of a liability as non-current, because having an unconditional right to defer settlement was seen as a much higher hurdle than having the discretion to defer settlement.

## When would the proposed amendments apply?

The IASB did not propose an effective date for the proposed amendments. However, if finalised, earlier adoption is proposed to be permitted.

The proposed amendments, if finalised, would be applied retrospectively.

The comment period for the ED ends on 10 June 2015.

## What are the changes proposed by the ED?

The IASB proposes to delete the word 'unconditional' from paragraph 69(d) of IAS 1 so that 'unconditional right' is replaced by 'right', and to replace 'discretion' in paragraph 73 of IAS 1 with 'right' to align it with the requirements of paragraph 69(d). The IASB noted that rights to defer settlement are rarely unconditional, because they are often conditional on compliance with covenants in future periods.

The IASB explains in their proposed Basis for Conclusions that when a right is subject to a condition, an entity should take into account whether it complies with that condition at the end of the reporting period in determining whether the right should affect classification. Rights granted after the reporting period should not affect classification.

Accordingly, the IASB proposes to make it explicit in paragraphs 69(d) and 73 of IAS 1 that only rights in place at the reporting date should affect the classification of a liability.

The IASB decided not to include in the amendments an explicit requirement that rolled-over lending must be with the same lender, as proposed in the Annual Improvements 2010-2012 ED. Instead the IASB proposes to clarify that the classification of liabilities should be based on rights that are in existence at the end of the reporting period to roll over an obligation under an existing loan facility that directly relates to the loan being classified.

The amendments also propose to explain the link between the settlement of a liability and the outflow of resources from the entity by adding to paragraph 69 of IAS 1 that settlement refers to the 'transfer to the counterparty of cash, equity instruments, other assets or services'.

The IASB also proposes to reorganise the guidance in the Standard so that similar examples are grouped together to distinguish between circumstances that do affect the rights in existence at the reporting date, and those that do not.

## ***Observations***

The IASB also considered whether events after the reporting period, such as a breach of covenant or early repayment by an entity, should affect the classification of a liability. The IASB decided not to propose amending the guidance on the effect of events after the reporting period, because of concerns that it placed too much emphasis on management intentions and expectations and because such a proposal could represent an exception to IAS 10 Events after the Reporting Period

### **About Deloitte**

Deloitte refers to one or more of Deloitte Touche Tohmatsu Limited, a UK private company limited by guarantee (“DTTL”), its network of member firms, and their related entities. DTTL and each of its member firms are legally separate and independent entities. DTTL (also referred to as “Deloitte Global”) does not provide services to clients. Please see [www.deloitte.com/about](http://www.deloitte.com/about) for a more detailed description of DTTL and its member firms. Please see [www.deloitte.com/ru/about](http://www.deloitte.com/ru/about) for a detailed description of the legal structure of Deloitte CIS.

Deloitte provides audit, tax, consulting, and financial advisory services to public and private clients spanning multiple industries. With a globally connected network of member firms in more than 150 countries and territories, Deloitte brings world-class capabilities and high-quality service to clients, delivering the insights they need to address their most complex business challenges. Deloitte’s more than 210,000 professionals are committed to becoming the standard of excellence.

This communication contains general information only, and none of Deloitte Touche Tohmatsu Limited, its member firms, or their related entities (collectively, the “Deloitte Network”) is, by means of this communication, rendering professional advice or services. No entity in the Deloitte network shall be responsible for any loss whatsoever sustained by any person who relies on this communication.
