

**Auditing Information Systems –
In partnership with Deloitte**

Auditing Information Systems

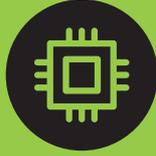

Interested in the IT auditing profession? This course extends beyond financial, accounting and business concepts taught in accounting courses and delves into how technology, along with its associated risks and controls, is an integral part of businesses.

The scope and concepts covered in this course is the same as the basic training received by an IT auditor in industry.

As part of the programme, you will:

Understand auditing beyond business and financial processes

Gain exposure to new areas of risk such as technology, cyber and regulatory changes

Experience learning through real world scenarios and from professionals with experience of more than 10 years

Be equipped with technology side of auditing methodology and develop more marketable skills

Get the opportunity to expand your network and be connected to professionals in the auditing domain

Deloitte-SMU Auditing Information Systems Programme Outline

Information Technology elements

Understand IT environment and IT controls affecting the business process. Develop acumen to test IT related controls.

Experiential learning

Activities modelled after real world scenarios, role plays to demonstrate examples of client meetings and session with Deloitte's Partner to understand current auditing trends.

Auditing IT

Learn to test elements of General IT Controls (GITC) and business cycle controls affecting related information systems.

Project delivery

Work as a team on a project simulating Deloitte's client engagements, to deliver audit working papers and present report and findings.

Who is eligible?

All accountancy and information system undergraduates* are welcome to apply for the elective programme.

How to apply?

This elective programme will be taught for the first time in the Academic Year 2018-2019, Semester 2 (January 2019), and it will be open for bidding on SMU's BOSS (Bidding Online System) platform. Enrol now to be part of this experience on Auditing Information Systems!

* Prerequisite - ACCT221 Accounting Information Systems or IS304 Process Modelling & Solution Blueprinting course.

Deloitte refers to one or more of Deloitte Touche Tohmatsu Limited, a UK private company limited by guarantee (“DTTL”), its network of member firms, and their related entities. DTTL and each of its member firms are legally separate and independent entities. DTTL (also referred to as “Deloitte Global”) does not provide services to clients. Please see www.deloitte.com/about to learn more about our global network of member firms.

Deloitte provides audit, consulting, financial advisory, risk advisory, tax and related services to public and private clients spanning multiple industries. Deloitte serves four out of five Fortune Global 500® companies through a globally connected network of member firms in more than 150 countries and territories bringing world-class capabilities, insights, and high-quality service to address clients’ most complex business challenges. To learn more about how Deloitte’s approximately 264,000 professionals make an impact that matters, please connect with us on Facebook, LinkedIn, or Twitter.
