

Conduct Watch

The smarter solution for managing disclosures & misconduct

Conduct Watch is your complete misconduct reporting solution, helping you to securely capture and manage harassment and misconduct issues in one place.

What is it ?

Conduct Watch is a secure and seamless end-to-end whistleblowing solution, helping organisations accelerate how they identify, respond to, resolve, and report on fraud and other misconduct.

How can it help ?

Quick and easy to set up, Conduct Watch has been designed to provide multiple reporting channels customised to your needs. The insights feed into a single source of information, helping you manage and monitor cases relating to incidents of workplace misconduct, policy and procedure breaches, and compliance and integrity matters.

From collection through to resolution, Conduct Watch works across multiple geographies, languages, and devices—with Deloitte’s quality and excellence front and centre.

Key features

Anonymous

Independent

Multiple reporting channels

Available 24 / 7

Enhanced analytics

Maximum efficiency with minimal complexity

DISCLOSURE

Whistleblower reports an incident(s) through one of the three secure and confidential channels.

TRIAGE

A forensic specialist documents the confidential disclosure and prepares a report in a format that clearly identifies the issues and makes it easy to formulate an investigation plan.

ASSESSMENT

Client Authorised Users access dashboards that open into a structured case management tool that lets your authorised disclosure coordinators review and manage disclosures.

RESOLUTION

Client undertakes follow-up action (and provides confidential feedback for the individual via Conduct Watch). Deloitte then communicates feedback to the Whistleblower where required.

Experience the benefits of **Conduct Watch** – your complete misconduct management solution
