### **Tightened COVID-19 border measures for travellers and transfers from Indonesia**

Channel NewsAsia | 10 July 2021

With effect from 11.59 p.m. on 12 July 2021, all travellers entering Singapore with recent travel history to Indonesia within the last 21 days will need to present a valid negative COVID-19 polymerase chain reaction (PCR) test result taken within 48 hours before departure for Singapore. Currently, such travellers will need to present a valid negative PCR test result taken within 72 hours before departure. Travellers who arrive in Singapore without a valid negative PCR test result may be denied entry.

Permanent residents and long-term pass holders who fail to comply with the new requirements may have their permit or pass cancelled. All travellers will also continue to be subject to a 14-day stay-home notice at dedicated facilities, as well as an on-arrival PCR test and a subsequent test on day 14 of arrival.

To expedite the COVID-19 PCR test at the checkpoints, travellers are strongly encouraged to register and pre-pay for their tests prior to arriving at [Changi Airport](#) or [Tanah Merah Ferry Terminal](#). Travellers must also undergo an on-arrival antigen rapid test (ART) and self-administered ART test on days three, seven, and 11 of their arrival.

With effect from 11.59 p.m. on 12 July 2021, all travellers with a travel history to Indonesia within the past 21 days will also not be allowed to transit through Singapore. In addition, with immediate effect, Singapore will reduce entry approvals for travellers from Indonesia who are not Singapore citizens or permanent residents.
