# About the Deloitte Technology Fast 500™

## About the Deloitte Technology Fast 500™

The Deloitte Technology Fast 500 Asia Pacific is the pre-eminent technology awards program in Asia Pacific, and now in its seventeenth year, it includes nine Asia Pacific locations: Australia; China (including Hong Kong); India; Japan; South Korea; Malaysia; New Zealand; Singapore and Taiwan. Combining technological innovation, entrepreneurship and rapid growth, Technology Fast 500 companies—large, small, public, and private—span a variety of sectors, and are leaders in software and hardware tech sectors, media, communications and life sciences and emerging areas, such as clean technology. These companies are transforming the way business is done today.

## Selection and qualifying criteria

The Technology Fast 500 award winners are selected based on percentage fiscal year revenue growth during the period from 2015 to 2017 (or 2016 to 2018 for a financial year ending between January and June). Eligibility for the Technology Fast 500 requires that companies own proprietary intellectual property or technology that is sold to customers in products that contribute to a majority of the company's operating revenues. Companies must have base-year operating revenues of at least US\$50,000. Additionally, companies must be in business for a minimum of three years, and be headquartered within Asia Pacific. This ranking is compiled from nominations submitted directly to the Technology Fast 500 program, and public company database research.
