*Having completed three years at Deloitte, I can vouch that Deloitte gives an individual a wholesome experience – be it client work or business development initiatives. It provides you with an entrepreneurial environment where you can be innovative and apply your knowledge and experience for the betterment of the business. I have noticed that as a company, Deloitte values each individual by providing a sound infrastructure, structured trainings, as well as processes that makes work-life very convenient. Deloitte is a place for all with aspirations.*

## SELECT PROJECTS

### Global Capital Markets Perspective

The Global FAS practice wanted to establish and maintain regular touch-points with its clients to keep them abreast of capital market events. The DPRS team in India, in collaboration with over seven member firms, created a half-yearly report on the current and expected trends in capital market instruments across the globe.

### FAS Target Client Selection Process

Deloitte FAS leadership wanted to look at a new way of prioritizing client selection process for FY14 and beyond based on the principle of "Client Centricity". DPRS in collaboration with other FAS service lines developed a tool that would enable FAS to target its clients better.

### Enterprise Fraud Management Research

The U.S. FAS Analytics team requested an overview of the Enterprise Fraud Management (EFM) market to assist them in designing a solution that would help them proactively prevent frauds across industries. Our research was used by the leaders to develop a new service, market it, and to educate the practice.

### Cross Teaming

DPRS practitioners work side-by-side with the Advisory practice during the latter's busy season and assisted in modeling and valuation assignments. In addition, DPRS also assists in economic and industry research reports that accompany the final valuation report.

## GROWTH OPPORTUNITIES

*"I started my career with Deloitte 2 years ago and it was probably the best decision I could have made. Deloitte provided me with best-in-class training to perfect my job while giving me the freedom to explore innovative ways to do it. A warm culture and a supportive leadership not only helped me excel at work but also facilitated my professional development through platforms such as Maverick, Deloitte Press, and other events."*
