

This document provides a summary of our performance against the ESG metrics that underpin our approach as a responsible business. It also includes a high level view of our financial performance

It is intended to be read in conjunction with the narrative in our FY21 digital Annual Report and [Accounts](#).

Over the next two fiscal years we aim to expand internal data collection to increase the transparency of our reporting and to reflect increasingly important societal issues.

Footnotes

- (1) Deloitte hires early careers talent throughout the year and honoured all offers that were made in FY21. The uncertainty of COVID-19 on the UK economy from March 2020 onwards resulted in Deloitte taking a cautious approach and reducing offers for the remainder of the financial year. This led to a total reduction of early careers hires for FY21.

Footnotes

- (1) The [Basis of Reporting](#) is available here.
- (2) 5 Million Futures (5MF) is our Deloitte North and South Europe societal impact ambition to help five million people get to where they want to be. In the UK we work alongside a network of charities, schools and social enterprises to give access to education and employment and empower individuals with the skills needed to succeed in today's economy.
- (3) Our community contribution is the financial value of our societal impact including donations, pro bono and volunteering hours; all of which support our 5 Million Futures ambition to help people overcome barriers to education and employment.
- (4) Our people are making an impact that matters by using their skills and expertise through volunteering, amplifying the impact of our charities, schools and social enterprises partners. This is our Purpose in action.
- (5) Offering professional expertise – pro bono – to charities and social enterprises is a core feature of the 5 Million Futures programme. Our professionals serve our society partners like we do our clients, delivering projects to address their business challenges.

Climate metrics

Scope: all figures reflect UK data

We have a global strategy, [WorldClimate](#), to drive responsible climate choices within our organization and beyond. Part of this strategy includes our commitment to become Net Zero for our own operations by 2030. We will reduce our total emissions in line with a 1.5°C pathway, and while we are on this decarbonisation journey we will also maintain carbon neutrality across our business by sourcing 100% renewable electricity and investing in carbon offsets to compensate for our residual emissions.

The following disclosure relates to Deloitte LLP, our UK geography. All metrics have been calculated in line with the [Basis of Reporting](#). Limited assurance was provided by BDO LLP over the consolidated Deloitte NSE carbon metrics, as per their [assurance statement](#). This included consideration of the underlying country data in Belgium, Denmark, Finland, Greece, Iceland, Ireland, Italy, Malta, Middle East, Netherlands, Norway, Sweden, Switzerland and the UK. Detailed emissions statements have been created for the [UK](#) and our [North & South Europe \(NSE\)](#) member firm.

Our Taskforce on Climate-related Financial Disclosures (TCFD) statement is published on our [DTTL site](#).

Carbon reduction plans have been developed for [Deloitte LLP](#) and [Deloitte MCS](#) in line with the UK Government's PPN 06/21.
