

FAST/4

Helping enable clients to begin their SAP S/4HANA transformation on AWS Cloud

Accelerating your SAP S/4HANA transformation journey

Through the FAST/4 program powered by AWS and SAP, we are helping break down SAP S/4HANA adoptions barriers. FAST/4 provides a holistic value proposition for SAP S/4HANA-enabled transformation. You will have visibility into the business impacts, validated technical feasibility, and confirmed level of effort and complexity for the transformation journey for a fraction of the time and cost.

SAP S/4HANA is transformative. With any transformation, you need to understand the risks, business impact, and investment in time and resources

- Move beyond a theoretical business case to one grounded in your true IT environment
- Resolve risks and complications before you begin a migration
- Get valuable feedback from your organisation before you deploy SAP S/4HANA with a real system using your actual data

The need for a digital core

Shift to SAP S/4HANA

SAP S/4HANA is the future. Now you need to demonstrate that SAP S/4HANA has value for your organisation and that it can be deployed with your internal pressures of cost efficiency and productivity

Digital business strategy

Technology capabilities should keep pace with evolving customer and business partners' behavior

Cloud adoption

Scalability and agility are critical to accommodating the growing global economy and M&A activity, where many enterprise workloads are now shifting to the cloud

Collectively, we are dedicated to helping you realise value fast with condience: Test drive SAP S/4HANA with your production data in 5-8 weeks*

*Approximate timelines only. Duration may vary based on scope, volume of data, level of customisation and version levels
