

**Deloitte.**

**Future of Work  
Escape Room**

**A rapidly changing environment, underpinned by exponential advances in technology, demographic and economic shifts, results in the need for businesses to better engage with their workers to truly understand their motivations and expectations at work**

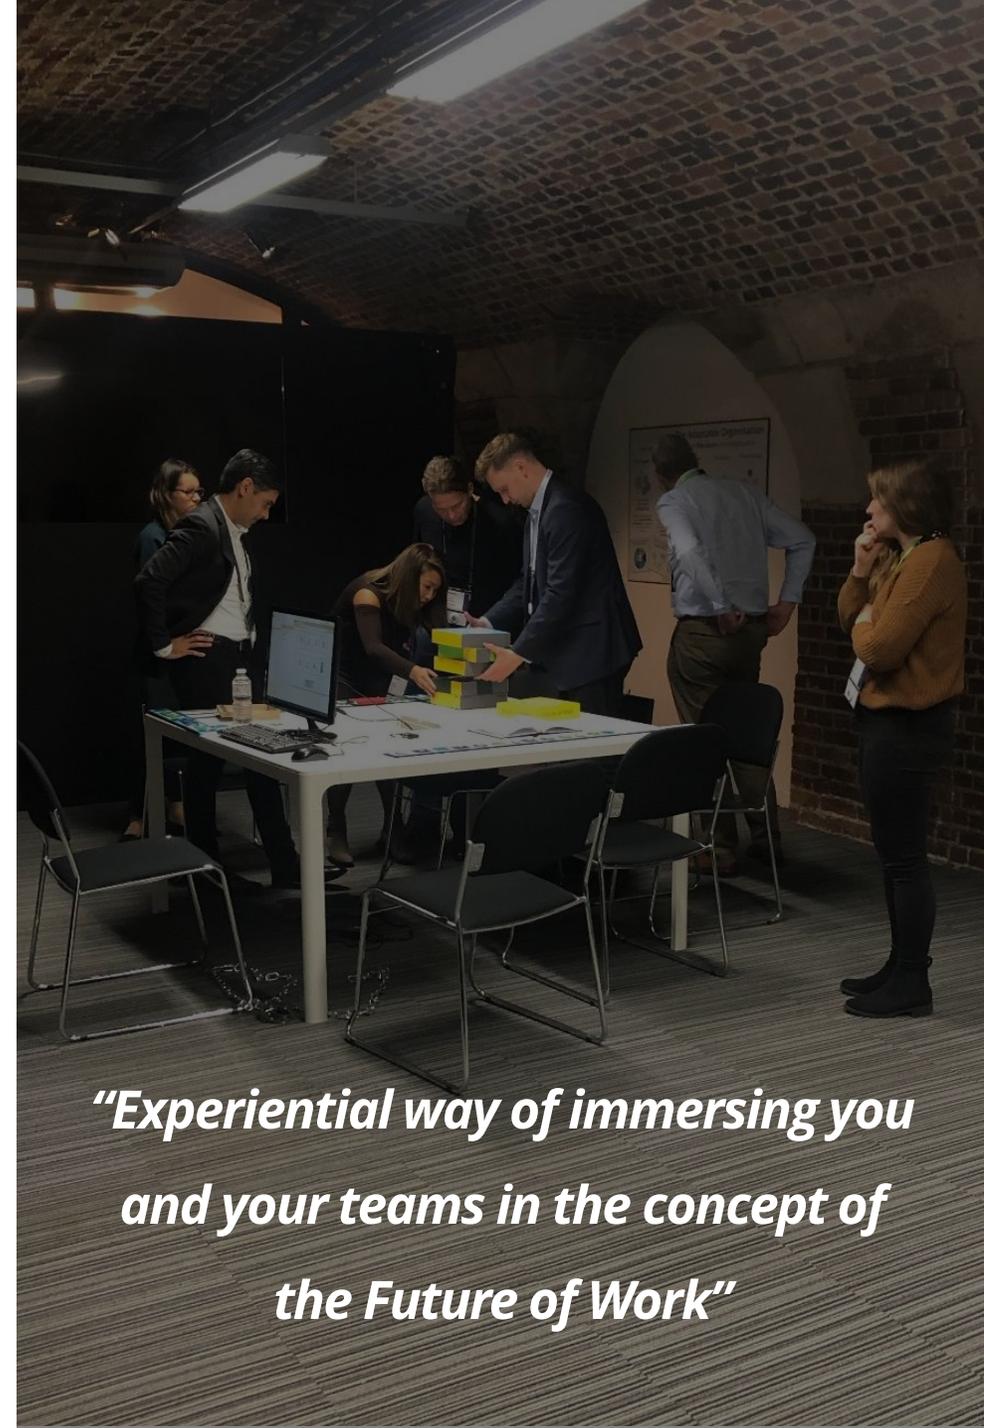

# What is the Future of Work Escape Room?

The Future of Work is now, and **disruption is everywhere.**

It is imperative that organisations understand the new drivers, realities and implications of the Future of Work otherwise they will be left behind

---

In our Escape Room you will work together as a team to solve some of the biggest challenges posed by the **Future of Work**, as our facilitators help you bring to life the opportunities and learnings facing your own organisation, making the Future of Work **relevant and meaningful to you and your team**

*“Experiential way of immersing you  
and your teams in the concept of  
the Future of Work”*

# The challenge

**Your team has been brought in to save Disrupted Ltd. The company is in trouble and needs your help!!**

Disrupted Ltd has been successful for many years and the leadership team thought they were too big and too strong a company to be disrupted by the challenges presented by the Future of Work. It turns out they were wrong. You and your team will have 45 minutes to identify how Disrupted Ltd can benefit from automation, alternative talent sources and adaptable ways of working by reinventing with a human focus. **Considering...**

---

## How work is delivered

**Imagine...** a workforce that is augmented by machines and powered by new talent models

Redrawing the boundaries of your organisation & delivering through an ecosystem of connected entities

---

---

## How business is organised

**Imagine...** networks of teams that maximize flexibility & innovation over hierarchy

Reinventing the way jobs are designed to harness the capability that makes us uniquely human

---

---

## How people experience work

**Imagine...** understanding your talent as well as you understand your customers to build an employee centric experience of work

Enable your people to work when, where & how they want

---

---

## How work is enabled

**Imagine...** architecting an organisation that leads the way by disrupting the market, rather than being disrupted

Reinventing traditional functions, by re-directing services to the experts

---

# Our approach

We run the escape room with **6 – 8 individuals**. For larger groups, we can run **up to 3 escape rooms** concurrently (adding an element of friendly competitiveness!!)

## Option One

**90** minute **escape room experience** for you and your team to fully immerse yourselves in the concept of Future of Work and understand how this might affect you as an organisation, as well as at an individual

## Option Two

**06** hour **Future of Work lab**, using the **escape room experience** to introduce you and your team to the concept of Future of Work before imaging the art of the possible in those opportunities of Future of Work specific to your organisations
