

Connected Patient Hub

Empowering patients with real-time connections to care teams.

Enhance the care journey with smarter communication and patient-data driven care coordination.

Patients at the centre of care

Patients are at the center of an evolving healthcare ecosystem where virtual health has become essential to expanding access to care and helping to improve clinical outcomes, increase patient engagement, and reduce costs.

Connected Patient Hub

CPH is a digital health patient care platform that connects patients and care teams to enable the future of care coordination and management.

Why Connected Patient Hub:

- **Establishes the foundation** of a modular and connected ecosystem to support patients and care teams at every stage and setting
- **Empowers patients** on their own health journeys by supporting interactive applications on their own devices – designed to suit specific needs
- **Designs continuous strategies** and builds capabilities that deploy patient-focussed, remote care
- **Underpins a robust health data** collection process with a focus on care plan management
- **Provides a holistic, personalised approach** to care plans

Connected Patient Hub by ConvergeHEALTH delivers high-touch consumer grade experiences for patients across channels.

The Connected Patient Hub difference:

The future of virtual health are the connections it enables. Those connections take place via an enterprise-wide platform that links multiple capabilities and methodologies seamlessly to create a unified, holistic patient experience.

ConvergeHEALTH's Connected Patient Hub solution builds on Deloitte's foundation of healthcare expertise, differentiated and impactful products and services, and industry-leading capabilities in customer experience design and data-driven personalisation

Health Care Centric

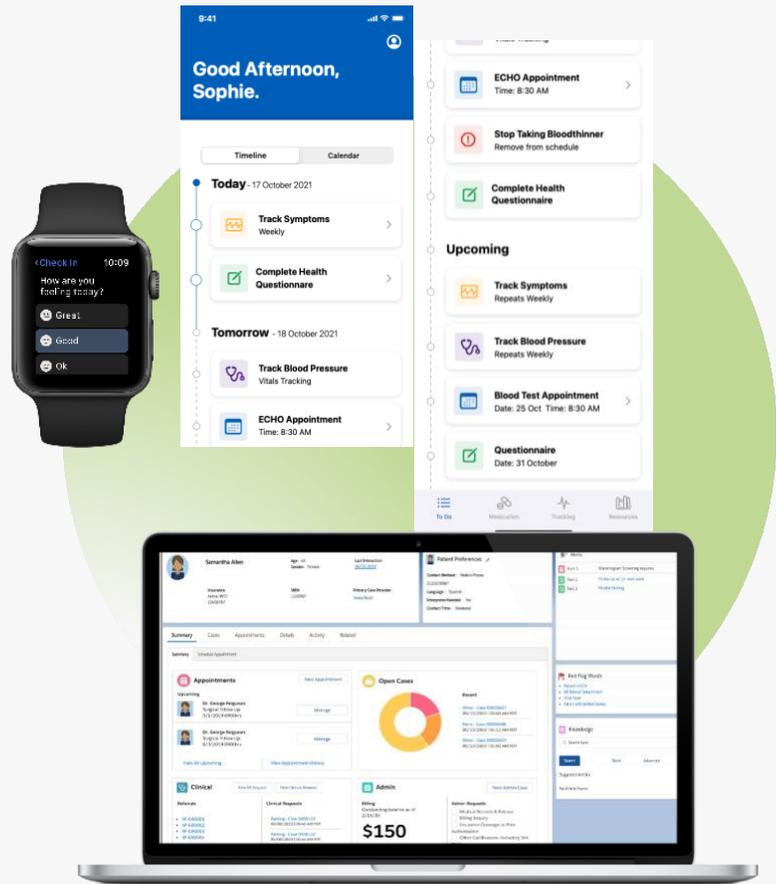

User-friendly design methodologies

Patient-centric care

Offers benefits for patients, care teams and systems
