

Deloitte in the public sector

The total Great Ormond Street Charity needs to raise each year. We made it easier for people to donate by digitising their process.

The expected annual savings gained when UK local authorities implemented our pension pooling solution.

Savings to reinvest in services to help more people.

£39 million

The funding we helped secure for the University of Bath. They aim to design propulsion systems for future generations of ultra-low emission vehicles.

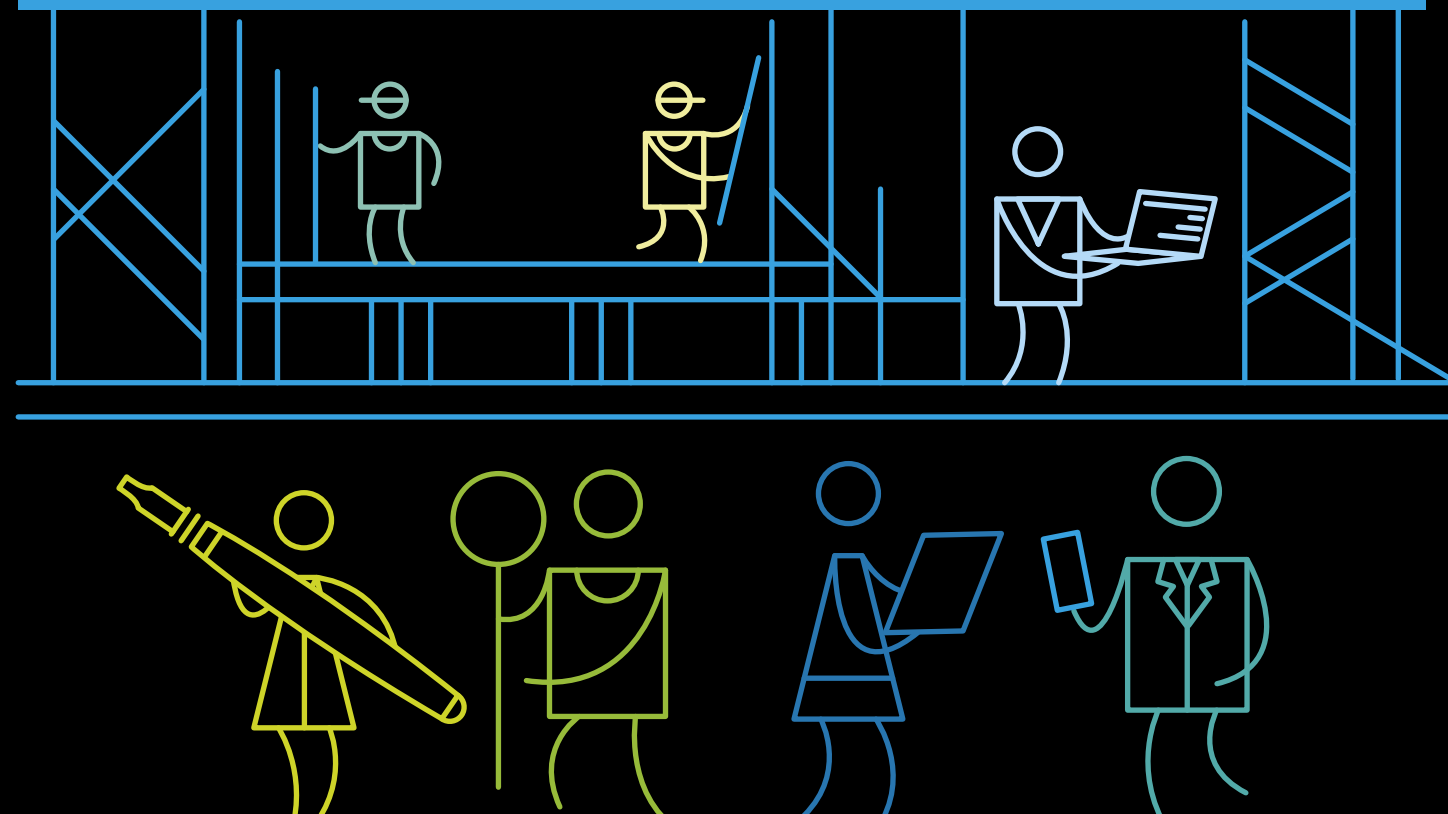

8,000,000

The number of journeys captured and analysed in London by Transport for London with the help of our analysis tool. Helping people get to their destination with minimum disruption.

We helped the Scottish Government set out a business case for its devolved employability service Fair Start Scotland, which will support this number of people per year.

10,000

30,000

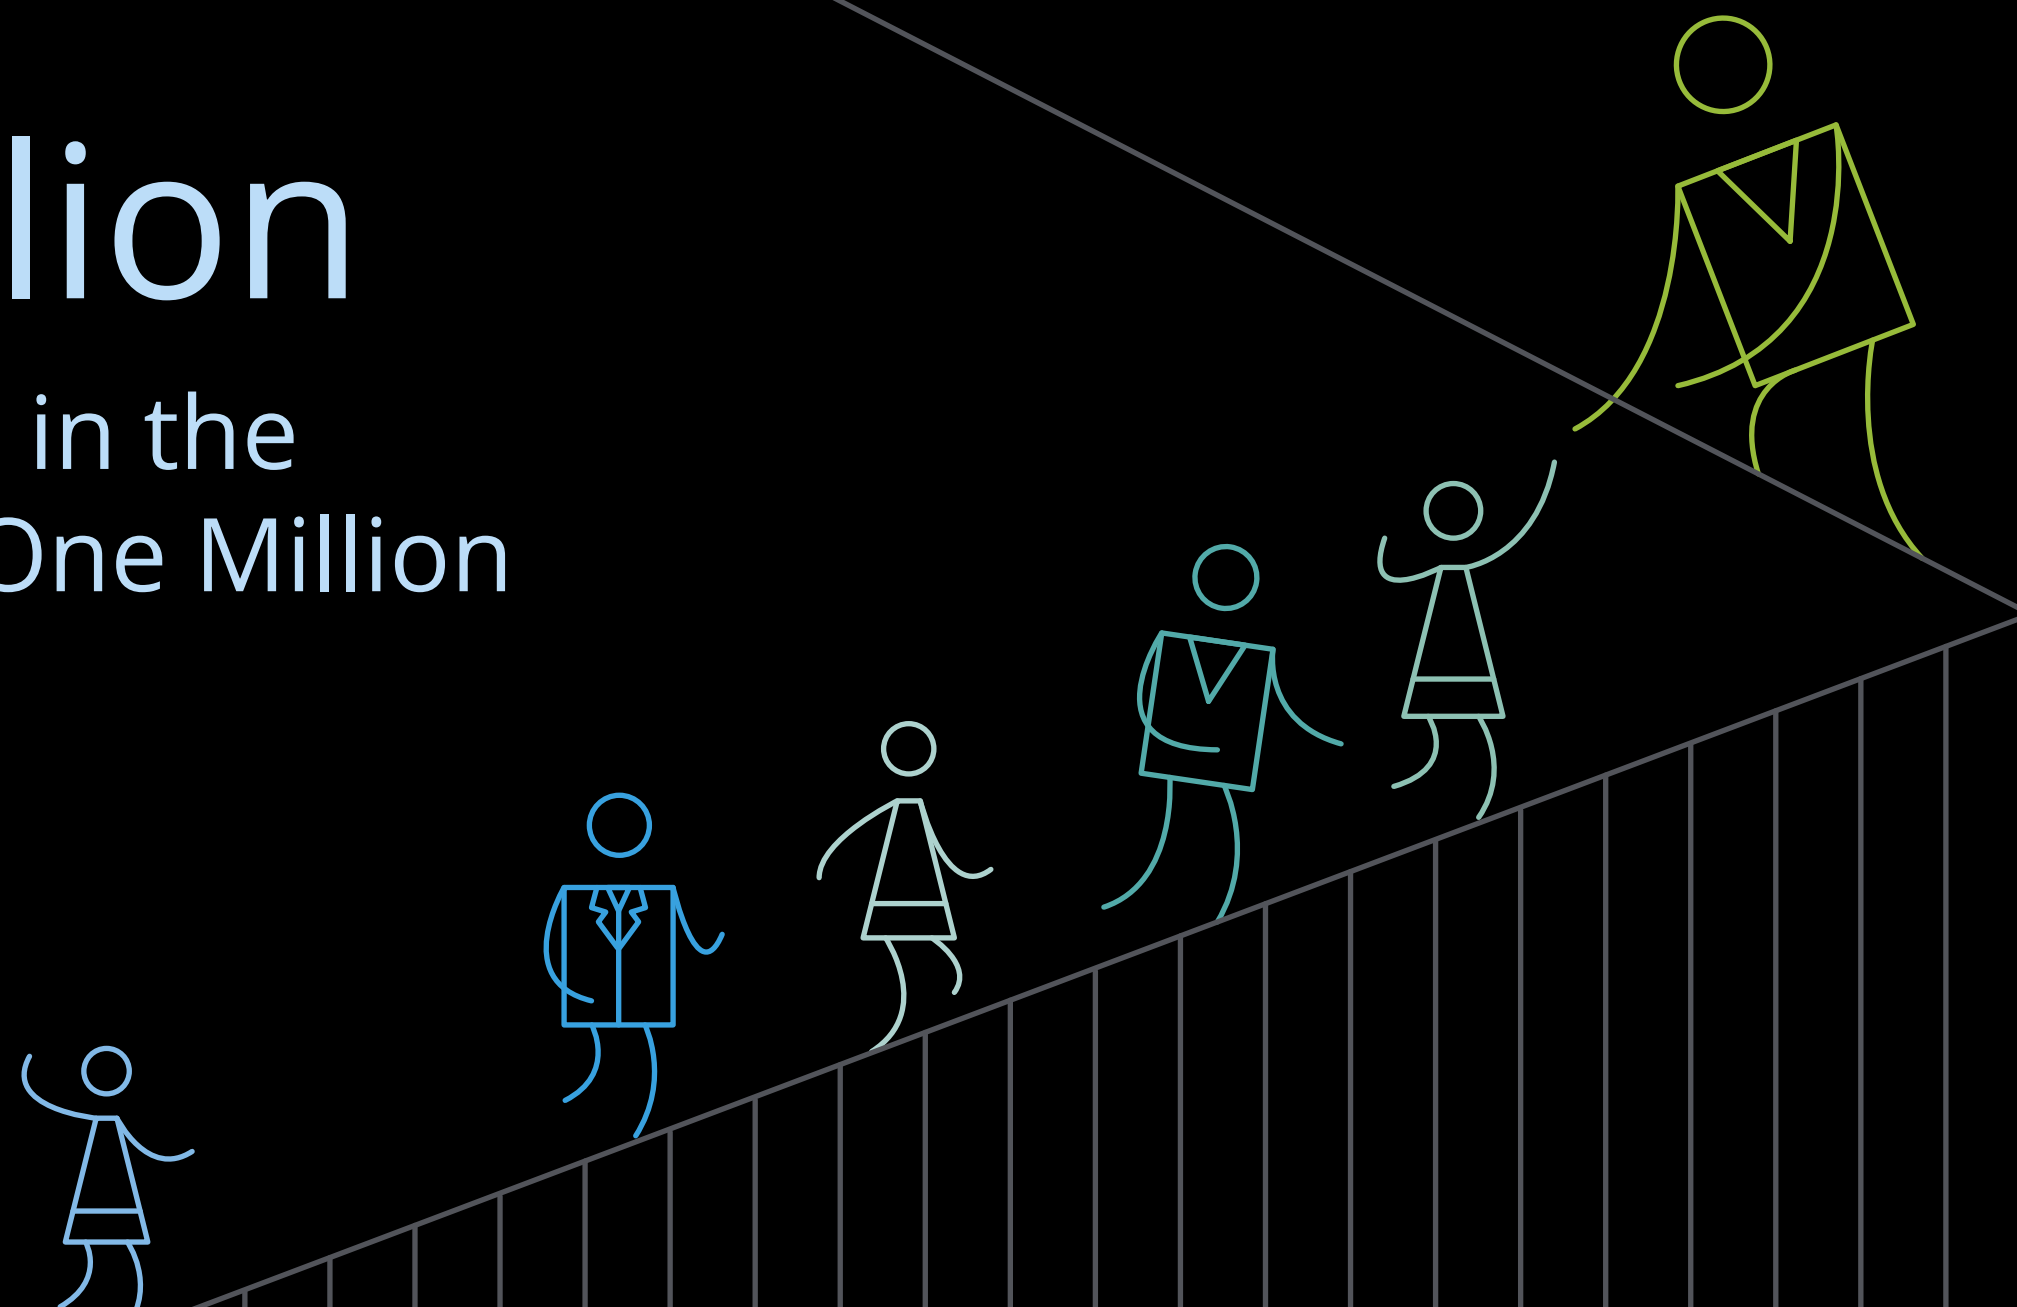

The potential number of homes that could be built as a result of Sir Robert Naylor's review of the NHS estate which we supported.

£4.7 million

Total investment in the first year of our One Million Futures strategy.

Our ranking in the UK's first-ever Social Mobility Employer Index.

285

Places on our bright start apprenticeship scheme this year. Levelling the playing field.

15,000

The number of people we employ in the UK.

It's what we do that makes the difference
