Deloitte’s Trustworthy & Ethical Tech Framework

Trustworthy & Ethical Technology

Robust / Reliable
Technology should produce consistent and accurate outputs, withstand errors, and recover quickly from unforeseen disruptions and misuse.

Fair / Impartial
Technology should be designed and operated inclusively in an aim for equitable application, access, and outcomes.

Transparent / Explainable
Users should understand how technology is being used and is making decisions; these decisions should be auditable and open to inspection.

Responsible
Technology should be created and operated in a socially-responsible manner.

Private
User privacy should be respected, and data should not be used beyond its intended and stated use; users should be able to opt-in/out of sharing their data.

Accountable
Policies should be in place to determine who is responsible for the decisions made or derived with the use of technology.

Safe / Secure
Technology should be protected from risks that may cause individual and/or collective, physical, emotional, environmental, and/or digital harm.

About Deloitte
Deloitte refers to one or more of Deloitte Touche Tohmatsu Limited, a UK private company limited by guarantee (“DTTL”), its network of member firms, and their related entities. DTTL and each of its member firms are legally separate and independent entities. DTTL (also referred to as “Deloitte Global”) does not provide services to clients. In the United States, Deloitte refers to one or more of the US member firms of DTTL, their related entities that operate using the “Deloitte” name in the United States and their respective affiliates. Certain services may not be available to attest clients under the rules and regulations of public accounting. Please see www.deloitte.com/about to learn more about our global network of member firms.
