Deloitte harnesses the power of Google Cloud to help our clients explore new possibilities, quickly navigate obstacles, and unlock value at every opportunity along the way.

Deloitte and Google Cloud work together to help clients complete their digital transformations, building on the platform and network that Google has run its business on for decades. But in order to seize the transformative potential of Google Cloud Platform (GCP), clients need a relentless focus on strategic goals, industry context, and operational realities, all with an experienced eye.

Deloitte’s Google Cloud practice helps drive real business outcomes from the powerful technology built into Google Cloud, which offers the tools you need to power a transformative cloud journey:

- Future-ready infrastructure
- Security at scale
- Hybrid and multi-cloud solutions
- Serverless, fully-managed computing
- Powerful analytics, AI and machine learning capabilities

Global Services Partner of the Year

Deloitte is Google Cloud’s back-to-back 2017 and 2018 Global Services Partner of the Year, earned by consistently providing exceptional service and focusing on transforming our clients’ businesses. The award recognizes partners that have helped their customers succeed by innovating, building and delivering the right Google Cloud solutions.

PREMIER PARTNER STATUS

Google Cloud’s premier tier is reserved for firms that have demonstrated the highest levels of competency and provides Deloitte access to premier-level trainings and tools that help our clients leverage the full suite of Google Cloud’s offerings and services. We undergo a yearly review to maintain our status, continuing to certify our resources, build integrated solutions, and deliver at our joint clients.

Becoming Specialized

Deloitte has received six Google specializations in under a year, undergoing rigorous technical assessments, employing certified professionals, and helping our clients succeed in:

- **Infrastructure** | Architecting and building GCP infrastructure and workflows, and completing customer migrations to GCP
- **Cloud Migration** | Building foundational architectures and then migrating significant numbers of customer workloads from either on-premises or other cloud providers to GCP
- **Security** | Securing customer infrastructure and workflows to GCP
- **Data Analytics** | Turning large amounts of data into actionable insights that drive business forward
- **Machine Learning** | Predicting new insights through data exploration, preprocessing, model training, model evaluation, model deployment, online prediction, and Google pretrained Machine Learning APIs
- **Marketing Analytics** | Helping customers collect, transform, analyze, and visualize data, and then use the insights gained to optimize marketing strategy and activations

Innovating Together

- Working with **Advanced Solution Labs** (ASL) to create solutions to high-impact business challenges, including **Contact Center AI**
- Creating market-leading industry **vertical solutions** in Life Sciences and Healthcare, Retail, Financial Services and Government and Public Sector
- Implementing and enabling **Anthos** to help clients develop, secure, and operate hybrid cloud and cloud-native environments
