Results that matter: Deloitte’s Coupa Accelerators

Helping clients transform their business spend management in months, not years

For almost a decade, Deloitte and Coupa Software have helped clients harness the capabilities of Coupa’s market-leading business spend management solution to bring clarity to even the most complex environments—producing real results that have real impact on the bottom line.

Based on our extensive experience across industries, Deloitte has developed leading practices, which have been carefully documented in our Deloitte Coupa Accelerators. Deloitte’s Coupa Accelerators can help decrease implementation time and reduce delivery risk for our clients, and are responsible for the successful delivery of some of Coupa’s largest and most complex global deployments on record.

Deloitte’s Coupa Accelerators benefit clients with:

- A thoroughly vetted implementation design that provides flexibility and scalability, developed with Deloitte’s interactive, agile ‘workshop’ method to engage critical stakeholders

- A compressed implementation timeline by fast-tracking high-stake decisions and reducing or eliminating the need for redesign or rework

- An end-to-end solution that can yield a successful procurement transformation that incorporates relevant business processes to lay the foundation for lasting change, built on a technology platform that enables and supports it
Introducing Deloitte’s Coupa Accelerators

**Coupa Design Accelerator:**
Facilitates key design decisions that require in-depth discussion when deploying Coupa to support clients’ Procure-to-Pay (P2P) business processes. These decisions are vital as they determine the foundation for technology configuration.

**Coupa Integrations Accelerator:**
Leverages the full capability of the Coupa platform and incorporates leading practices from other Coupa implementations and source-to-pay business process. This tactical three-step design approach helps determine optimal integration objects and business drivers, and orchestration methods.

**Coupa Supplier Enablement Accelerator:**
Plans and executes a supplier enablement strategy to support communication, enablement, and testing activities. Deloitte’s five-step methodology helps to identify which suppliers should be enabled in Coupa, and what enablement should be used.

**Coupa Compliant Invoicing Accelerator:**
Designs and processes critical considerations when testing and enabling suppliers on the Coupa Compliant Invoicing tool. The Compliant Invoicing Accelerator will be released in late 2018.

Deloitte is a recognized leader:

- Global leader in Sourcing Strategy Consulting based on breadth and depth of capabilities
- Global leader in Procurement Operations Consulting based on breadth and depth of capabilities
- Global leader in Supply Chain Strategy & Planning based on capabilities
