## The results are in!

Thank you to everyone (12k of you!) who participated in this summer's alumni survey. Your input lets us know how to strengthen our interactions, what works for you, and where to focus going forward.

The survey also helps us consider program enhancements. For example:

- About 60% of respondents expressed interest in an **alumni directory**. We'll continue to evaluate technology platforms that work with our existing technology and meet our privacy standards. In the interim, the advanced search option in the [Deloitte US](#) group on LinkedIn may be helpful. Members can send 15 free InMail messages to other group members even when not directly connected to them.
- There was strong interest in **job search and career development support**. As a first step, we're pleased to offer a [career development workshop series](#) exclusively for alumni. We'll continue to explore other opportunities to extend our development culture.
- Finally, 67% weren't familiar with our [Marketplace Jobs Board](#). This online resource features jobs available through clients and friends of Deloitte. **Resumes are sent straight to hiring contacts**. Please keep this job board in mind if you're conducting a search or have an open position to fill.

Thank you again for sharing your thoughts through the survey. If you have additional feedback, please [email us](#) or contact your [local Alumni Relations professional](#). We value our relationship with you - our Colleagues for life - and look forward to strengthening our connection!

## Free the enterprise.

Apple and Deloitte team up to accelerate business transformation

Apple and Deloitte are joining forces to help businesses better connect employees, inventory, supply chains, and back-office systems using custom iOS solutions. Key to this partnership is Deloitte's first-of-its-kind Apple practice with over 5,000 strategic advisors who are solely focused on helping businesses change the way they work across the entire enterprise.

Apple and Deloitte will also collaborate on the development of a new service offering called EnterpriseNext, designed to help clients fully take advantage of the iOS ecosystem of hardware, software, and services in the workplace. The new offering will help customers discover the highest impact possibilities within their industries and quickly develop custom solutions through rapid prototyping.
