

Solution Developer—Technology Consulting

Interested in creating mission critical solutions? Together with our other delivery centers around the world, we provide development and sustainment services for our clients, both pre-and post-implementation. Here you'll get the chance to work on projects that will build on your technical and business skills and help our clients achieve a higher level of service in operational efficiency and business value.

Work you'll do

As a Solution Developer in the Technology Consulting practice, you'll work with an experienced team to act as a strategic advisor to clients and assist them in the application, custom development, and management of technology to help enhance their business' performance. You'll play a key role in the design, installation, testing and maintenance of application software, and leverage information technology to solve business problems through decision support, analytics, and data warehousing systems. Based on your project requirements, you may be responsible for coding entirely new custom software applications, or you may use 'off the shelf' software, requiring you to modify and integrate it into an existing system to meet business needs.

As a Solution Developer, your tasks may include:

- Producing detailed specifications and developing program code
- Working closely with analysts, designers, and subject matter experts
- Functional testing of systems in a controlled environment
- Constructing transition plans from the project to the support team
- Helping maintain clients' applications and technology infrastructure
- Delivering Data Warehouse and Business Intelligence solutions
- Creating and customizing strategic and operational reporting solutions
- Leveraging business discovery tools to provide client decision support

Key skills include: analyzing information, eliciting software requirements, general programming, software design, debugging, documentation, testing, problem solving, and teamwork.

The team

Our US Delivery Center team is comprised of deeply passionate and experienced professionals who guide clients through their most complex technology challenges. We work with clients and help them develop custom software solutions, manage their applications and databases, and provide strategic recommendations to help them optimize their businesses' operations, processes, and performance. [Learn more about the US Delivery Center.](#)

Qualifications

Required

- Bachelor of Science degree in Management Information Systems, Computer Science, Software Engineering, or IT-related area
- Strong academic track record (minimum GPA of 3.0)
- Ability to troubleshoot, problem solve, and simplify complex technical issues for clients

- Knowledge of software development principles and hands-on programming experience through coursework or internship AND/OR knowledge of relational database principles, data modeling and schemas
- Willingness to travel up to 15 percent of the time

How you'll grow

As we continue to grow, so has the need for application development and management professionals that we will develop and train to allow us to continue to provide the support for our clients' systems and business processes. When you start, we'll give you up to two weeks of orientation, professional training and the relevant technology education to launch your consulting career. If that's not enough, we'll also give you mentoring and counseling programs as well as professional and technology training.

Benefits

At Deloitte, we know that great people make a great organization. We value our people and offer employees a broad range of benefits. [Learn more about what working at Deloitte can mean for you.](#)

Deloitte's culture

Our positive and supportive culture encourages our people to do their best work every day. We celebrate individuals by recognizing their uniqueness and offering them the flexibility to make daily choices that can help them to be healthy, centered, confident, and aware. We offer well-being programs and are continuously looking for new ways to maintain a culture where our people excel and lead healthy, happy lives. [Learn more about Life at Deloitte.](#)

Corporate citizenship

Deloitte is led by a purpose: to make an impact that matters. This purpose defines who we are and extends to relationships with our clients, our people and our communities. We believe that business has the power to inspire and transform. We focus on education, giving, skill-based volunteerism, and leadership to help drive positive social impact in our communities. Recruiter tips

We want job seekers exploring opportunities at Deloitte to feel prepared and confident. To help you with your potential interview, we suggest that you do your research: know some background about the organization and the business area you're applying to. We also suggest that you brush up on your behavioral and case interviewing skills and practice discussing your experience and job history with a family member, friend, or mentor. [Check out recruiting tips from Deloitte professionals.](#)

All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, age and disability or protected veteran status, or any other legally protected basis, in accordance with applicable law.
