On the cover: Marlene Rivera, a “Citizen Servicemember,” is a senior consultant, Deloitte Consulting LLP, assigned to the Rosslyn Office and a major in the Virginia Air National Guard.
At Deloitte, we are committed to supporting the Veterans, Military, Spouses, and Allies (VMSA) community, matching their skills and interests with impactful work and activities. Through a broad range of programs and resources, we are also committed to supporting and strengthening their overall health, well-being, and success. Together we continually connect, learn, grow, and make tremendous impacts while staying true to Deloitte’s core values. We are proud to recognize the spirit and culture of our diverse VMSA community in this year’s report.

This year’s theme, “The Year of Guard and Reserve Members: Celebrating Our Citizen Servicemembers,” highlights the dedication and talents of the more than 500 members of our workforce who currently serve in the Reserve and National Guard. We honor their service and the sacrifices they and their families have made and continue to make in support of our nation, and we recognize the unique skillsets they bring to Deloitte and to their military missions. This report emphasizes Deloitte’s continued efforts to elevate Reservists, Guard members, and the entire VMSA community and demonstrates our corporate responsibility and continued commitment to engage and support the Veteran and military-affiliated community at large.
A message from the Deloitte US CEO, Jason Girzadas

Veterans, military servicemembers, and their families represent the best of our nation and are an important part of Deloitte. I've seen firsthand the unique perspectives, experiences, skills, leadership, and values they bring to the workforce alongside their tremendous contributions and sacrifices for our great nation.

Supporting our Veteran, Military, Spouse, and Allies (VMSA) community is deeply embedded in our culture and part of who we are at Deloitte. It's my honor to introduce the 2023 annual Veteran Impact Report (VIR) celebrating the “Year of Guard and Reserve Members.” At Deloitte, we have more than 500 active “citizen servicemembers” who continue to serve our country while also bringing their best to our clients, teams, and organization. There are so many ways our dedicated VMSA community exemplifies our purpose in action—to make an impact that matters—and I hope you find their stories inspiring.

It is my honor and privilege to thank all of Deloitte’s Veterans, servicemembers, families, caregivers, and allies for all that you have done, and continue to do, in service to our country and our organization.

A message from the Deloitte Chief Purpose and Diversity, Equity, and Inclusion Officer, Kwasi Mitchell

At Deloitte, we embed purpose in each aspect of our culture to help influence social change and build toward a more equitable society. Our work with our Veterans is a prime example of these efforts. Through their unique lived experiences, perspectives, and qualities of selflessness, humility, and courage, our diverse community of Veterans brings great value to our organization and a special viewpoint on what it means to embody a life of purpose in service and to experience equity in the phase of life that follows afterward.

It is our hope that this report illustrates the important impact our Veterans have had not only in our workplace, but also society more broadly. Their influence is a testament to how important it is for us to continue to use our unique capabilities to help remove systemic barriers to prosperity and create a culture and system that empowers all people to thrive and have fair access to opportunity.

To our Veterans and their families, thank you for your dedication to our nation and for everything you do for us. Your service and sacrifice reminds us to hold the ideals you so intrinsically embody central to our commitment to advance equity across our organization and in our communities.
A message from the Veterans, Military, Spouses & Allies champion, Juan Garcia

The Veteran Community has a unique way of communicating. It’s instantly recognizable by those who’ve spent time in uniform—it’s blunt, raw, and hilarious to those who understand it (particularly the relentless inter-service rivalry…). But it’s a form of humor that for generations of servicemembers has served to take the edge off and break the tension during some intensely pressurized settings. And it’s underpinned by the absolute certainty that the same buddy continuously razzing you has also got your back against any threat.

That unique camaraderie was on full display at the first ever Veterans and Military Allies Summit, shoulder-to-shoulder with the Military Spouse Initiative Summit, at Deloitte University in February. There was brutal inter-service teasing, constant competition, but there was also intense bonding. We were inspired to hear about the activities in the respective Hubs, and our special guest speakers reminded us about the importance of our mission.

That gathering set the tone for the rest of the year. The Hub structure has taken root and is thriving, driving engagement and ensuring support for our members. Deloitte’s investment in a dedicated Veteran Recruiting Team continues to pay off and is further evidenced by the quality of transitioning senior military fellows who choose to come to Deloitte. Our signature initiative CORE expanded to go “on the road.” And this summer’s update to our formal title, now the “Veterans, Military, Spouses and Allies” (VMSA), speaks to the absolutely integral role military families hold in our community.

The theme of this year’s VIR is highlighting the 500+ colleagues serving in the Reserve and the Guard. It is part of a campaign to educate Deloitte on how best to support our professionals, and highlight the unique value they bring our clients as they balance project work, family commitments, and an obligation to the nation that often means unpredictable training requirements and the constant possibility of activation/mobilization.

I want to thank Anna Wyant, a Rosslyn-based Manager, US Air Force Reservist (a “mustang” recently promoted to Major) supporting the Space Force, and the spouse of an Air Force pilot, who somehow found the time to lead this year’s VIR! She brought together an incredible team of Veterans, Spouses, Parents with children currently serving, and committed Allies. Thank you Jim Payne, Ryan Holmes, Makayla Rose, Augusta Runyon, Jordan Hundley, Tammy Whitehouse, and Simone Jo. Bravo Zulu!

Fly Navy,

Juan
Leading with purpose
Leading from the front by highlighting the strengths of our communities and uplifting those around us.
**Purpose-driven leadership.** Deloitte has long recognized that the strength of an organization starts with skilled leaders who lead with purpose. Purpose-driven leadership is a guiding principle that inspires individuals and teams to achieve meaningful outcomes, instilling a sense of direction, motivation, and unity. At Deloitte, the intersection of purpose-driven leadership and our Veterans is a compelling narrative that exemplifies the transformative power of shared values and a lifelong dedication to selfless service. For Guard and Reserve members, the transition between corporate life and military life comes at the drop of a dime. They must switch their entire mindset from corporate leadership to that of military leadership. Transitioning between these two leadership paradigms can be challenging yet profoundly enriching. This shift requires them to seamlessly navigate the differing expectations, values, objectives, and job skills within each domain. Their resilience and adaptability in high-stress scenarios exemplifies their commitment to purposeful leadership and to the people whose lives have been entrusted to them. The mindset and job skills may change, but the underlying concepts of selfless service and their purposeful leadership remains the same. These concepts exemplify the symbiotic relationship between the VMSA and Deloitte and their unwavering commitment to a greater purpose. This purpose not only benefits the organization but also exemplifies the essence of leadership in the modern corporate world. By examining their shared values and the transformative impact of their service and lived experiences, they help to solidify the path to lead with purpose.
Career Opportunity Redefinition and Exploration Programs

In 2013, as part of the White House Joining Forces Initiative, Deloitte made a public commitment to double its US Veteran hiring. Then, invited by the White House to do even more, Deloitte decided to tackle the broader national employment and retention challenges—and created the Career Opportunity Redefinition Exploration (CORE) Programs. These programs leverage the latest leadership development science and curriculums to help position transitioning servicemembers and Veterans to realize their maximum potential as leaders in their communities.

CORE Programs’ purpose is to help transitioning servicemembers and Veterans gain a better understanding of themselves and their career goals and to build the skills for a successful transition to the civilian workforce. CORE Programs guide participants through a proven process where they apply their leadership experience, strengths, and interests—in an environment of trust and authenticity—to discover meaning and purpose in their post-military careers. All CORE Programs are designed, managed, and delivered by the Deloitte Leadership and Human Potential team, part of Deloitte’s internal Growth and Development organization.

Impacts. Now in its tenth year, the CORE Program Portfolio continues to make an impact that matters for our people, our clients, and our communities.

Our people. The Deloitte Leadership and Human Potential Social Impact team activates the Deloitte community to serve as volunteers for the CORE Programs, providing Deloitte professionals with meaningful opportunities to engage with their communities. Volunteers with the CORE Programs come together from various locations and work roles, enabling our professionals to network and form authentic relationships with colleagues across the business. More than 500 active Deloitte volunteers, including more than 50 Deloitte Partners, Principals, and Managing Directors, have dedicated more than 28,000 volunteer hours in support of CORE Programs since 2013. They continue to be the “secret sauce” to achieving program outcomes for learners and supporting successful servicemember and Veteran transitions both inside and outside the...
classroom. More than 1,000 Deloitte Veteran new hires have attended the CORE Success Program to date.

**Our clients.** More than 45 of Deloitte’s clients have participated in the Corporate Panel at the CORE Leadership Program at Deloitte University in Westlake, Texas, by providing transition advice to participants from their perspective as senior executives across many industries. The CORE Programs Team continues to collaborate with Deloitte Human Capital Consulting to provide licensed and/or custom CORE Programs (content and delivery services) to help drive onboarding, transition, and retention efforts for our clients’ own Veteran communities.

**Our community.** More than 2,400 transitioning servicemembers and Veterans are alumni of CORE Leadership and Fundamentals Programs, and over 5,500 Hiring Our Heroes Fellows have attended CORE Fundamentals and/or CORE Success Programs since the start of Deloitte’s sponsorship of the US Chamber Foundation’s Hiring Our Heroes Corporate Fellowship Program in 2019. Support for CORE Program participants does not end when they leave the classroom. Life-changing relationships and networks are created through the CORE Program, and those are amplified and supported through digital tools and resources including a social media community (LinkedIn) to help facilitate ongoing networking and connection focused on transition support.
Programs

CORE Leadership Program is Deloitte’s flagship, 2.5-day workshop delivered at Deloitte University four times each year for approximately 55 selected US transitioning servicemembers and Veterans. The Program is supported by more than 60 Deloitte leaders, volunteer coaches (most of them Veterans), staff, and external guest speakers. Select Deloitte clients altruistically participate in a Corporate Panel discussion to share their own experiences and recommendations, bringing multiple perspectives in a non-recruiting environment.

CORE Leadership delivers an immersive environment of trust and authenticity to help participants achieve the following outcomes:

• Know yourself by identifying your unique strengths and experiences to build a personal brand.
• Know your fit to help target career opportunities based on your personal brand, interests, and priorities.
• Know who can help by demystifying networking and exploring the power of networks.
• Tell your story in a way that resonates with others, including potential employers.

CORE Fundamentals is a scalable, in-person or virtual one-day program designed to deliver similar key outcomes as the CORE Leadership Program through a modified, condensed approach to reach a wider audience. CORE Fundamentals has a highly flexible agenda to accommodate diverse environments and schedules and is frequently delivered at workforce development conferences, universities, and Veteran transition forums.

This experiential, high-impact workshop is also delivered as part of Deloitte’s sponsorship of the US Chamber Foundation’s Hiring Our Heroes Corporate Fellowship Program.

CORE Success is the cornerstone of Deloitte’s broader Veteran onboarding and retention strategy, with a focus on accelerating the transition of Veterans post-hire at Deloitte. The curriculum includes three key areas:

• Adapting: understanding the similarities (and differences) between military and civilian work culture.
• Interacting: developing key skills for engaging successfully in a civilian work setting.
• Engaging: finding fulfillment and connectedness in a civilian job.

CORE Success is led by Deloitte volunteer faculty and coaches, many of whom are Veterans.

“The CORE Program has been a transformational experience for my transition journey and the next chapter in my life.”

“In the military, you are often told to not show your weaknesses or vulnerabilities and I knew that could be an obstacle I would need to overcome. Going to CORE provided a space to explore those vulnerabilities and to identify my strengths and stories that came along with those vulnerabilities.”

“I think the [CORE Leadership] Program has captured lightning in a bottle in large part due to the commitment of the people involved in making it happen. I would love to volunteer to pay it forward to transitioning servicemembers who will be where I am now.”
Veteran Mentorship Program

The Veteran Mentorship Program (VMP) is a one-year mentorship program that pairs newly hired Veterans with experienced Veteran practitioners to help accelerate their transition to Deloitte. The program uses a variety of attributes to effectively pair new hires with mentors who have similar military backgrounds and who work in similar areas of the organization. The VMP supports Deloitte Veterans in three ways:

1. Understanding Deloitte culture: Military culture is vastly different than Deloitte’s culture. VMP mentors provide training and resources to help Veterans acclimate to the organization and hit the ground running. The program aims to connect mentees with their mentors within the first 60 days at the organization so they receive strong formal and informal mentorship.

2. Navigating a Deloitte career: Military servicemembers, while on active duty, typically have a set career path and may not have a wide variety of areas they can get involved with to help grow their skills. This can differ from a career at Deloitte, where practitioners may have a large selection of potential paths to take when advancing their career. VMP mentors help guide mentees in getting involved in Deloitte initiatives that interest them and create value for their professional growth in the organization.

3. Networking: Mentors help mentees understand the importance of networking at Deloitte. By sharing personal experiences, leading practices, and personalized advice, mentors help mentees build, maintain, and leverage relationships that drive professional growth and development.

Employer Support of the Guard and Reserve

Employer Support of the Guard and Reserve (ESGR) is a Department of Defense office. Their stated mission is to develop and promote supportive work environments for servicemembers in the Reserve components through outreach, recognition, and educational opportunities that help increase awareness of applicable laws. ESGR seeks to promote cooperation and understanding between Reserve component servicemembers and their civilian employers. Deloitte supports and values the employment of members of the National Guard and Reserve. Since last November, seven Deloitte supervisors have been awarded the ESGR Patriot Award for their stellar support.

Trina Cohorst and Adrian Foushee, Senior Managers, Deloitte Consulting LLP, recently received the Patriot Award for their support of Gavin Rivas, a Senior Consultant, Deloitte Consulting LLP. When Gavin was called to lead an Army Civil Affairs Company to aid the Army 1-2 Stryker Brigade Combat Team’s final evaluation at the Army’s National Training Center located at Fort Irwin, California, Trina and Adrian identified additional resources and took on additional work to facilitate Gavin’s departure and return to the organization. Gavin’s month-long exercise is important to the Army Brigade’s validation to deploy in support of real-world missions. Thanks to Gavin for his service to our nation, and thanks to Trina and Adrian for going above and beyond to support!

Guard and Reserve members can nominate a supervisor, coach or other leader at any time.
Brigadier General Ted Scott
Army National Guard Member and Senior Manager, Deloitte Services LP

“I have been with Deloitte for 11 years and currently work in Deloitte Technology as the ServiceNow Business Transformation Leader. I’m also a Brigadier General in the Georgia Army National Guard with 37 years of service, currently serving as Commanding General of the 78th Troop Command and Assistant Adjutant General for the Georgia Department of Defense. In both my Deloitte and National Guard leadership roles, there is a great deal of intersectionality centered around servant leadership. This intersection has positioned me to support the individual growth of my team members, empower my teams to achieve their best potential, and encourage inclusive team cultures by showing empathy and understanding diverse perspectives. Deloitte has been fully supportive of my military service, which has allowed me the flexibility to integrate my Deloitte and National Guard responsibilities. This support enables me to lead as a servant to empower our Deloitte professionals who provide solutions that exceed client expectations, as well as my fellow Guard members, who hold our way of life so dear that they are willing to deploy into harm’s way to defend it.”

“Colleagues in the National Guard and Military Reserve” video

Educating our leaders about supporting our Guard and Reserve workforce. It’s important for supervisors, coaches, project managers, and other leaders to know and understand their workforce, particularly the unique situations that can affect our professionals who actively serve as Guard or Reserve members. In an effort to educate Deloitte leadership and help ensure our Reservists and Guard members know we support and value their service, the VMSA team created a video featuring Mary Winans, a Senior Consultant, Deloitte Consulting LLP, and Marine Corps Reserve logistics officer, and VMSA champion Juan Garcia. Together they explain servicemembers’ rights and how their leaders can best support them during regular duty and extended deployments. This is a great step in educating our workforce and helping them better understand issues that can affect our hundreds of current Guard and Reserve members. Thanks to Seamus Ahern, who led this effort, and the dedicated VMSA team, who continue to show their dedication to our VMSA community every day.
Legacy of service

Tapping into a prodigious talent pool to leverage the outstanding skills and perspectives of Veterans and servicemembers for exceptional client delivery.
Finding, connecting, and building success.
Deloitte values the vast experiences and perspectives of our Veterans and military families and works to foster an inclusive culture that leverages their diverse backgrounds in positive and meaningful ways. We are continually developing and expanding our innovative recruitment, hiring, onboarding, staffing, and professional development programs specifically designed to increase our Veteran talent pool. Our unique programs help target, recruit, and cultivate exceptional VMSA professionals by:

- Growing our expansive network of highly experienced recruiting and human resources practitioners to provide resume-building assistance, in-depth interview coaching, and core professional development.
- Collaborating with Veteran service organizations as well as government and commercial entities to provide pro bono services that have a direct positive impact on workforce transition for servicemembers, Veterans, and military families.
- Leveraging our world-class technical practitioners to design curriculums and fellowship programs that prepare servicemembers and Veterans to enter highly skilled and specialized fields.
- Connecting through 10 geographic hubs, each with a Veteran champion, two leaders, and Military Spouse Initiative representative, all working together to drive engagement and provide support at the local level.

The impacts of Veteran recruiting continue to expand year over year. As Veterans, Reservists, and Guard members enter the civilian workforce, they bring exceptional skills from their military careers that strengthen and empower Deloitte. With honors and recognitions such as “Military Times: Best for Vets,” which has been awarded for seven consecutive years, Deloitte is consistently recognized for supporting our nation’s military and Veteran communities through successful recruiting, training, and retention programs.
Veteran Recruiting Team. With more than 3,000 Veterans now onboard, Deloitte continues to attract and retain a significant number of servicemembers who are transitioning to the civilian workforce. Deloitte is proud to be a committed military-friendly workplace for our VMSA community, and that starts with targeting and hiring more Veteran talent.

Deloitte’s three-person Veteran Recruiting Team, Leah Jones (US Navy Veteran) and Brennan O’Boyle (US Marine Corps Veteran) led by Kevin Whirity (US Navy Veteran), provide recruiting support alongside Deloitte programming and by engaging with the Veteran external vendor community. Each year, the team attends numerous events nationwide to help create an experienced talent pool and help educate military members about Deloitte and the corporate experience. With many military events held annually throughout the country, the Veteran Recruiting team participates in events nationwide to connect with leading talent across an ever-evolving business.
Employment Bootcamps

In collaboration with the Wounded Warrior Project and Air Force Wounded Warrior, Deloitte’s Physical Health and Well-being Team delivers Employment Bootcamps (EBCs) in virtual and in-person formats to support the holistic well-being of wounded warriors, Veterans, caregivers, and family support members. EBCs are designed to empower these warriors and their family members, focusing on articulating transferable skills, developing an elevator pitch, tailoring resumes, and mastering interviews to help them become highly competitive in the civilian job market. In the past year, the team has:

- **Held 4 virtual and 17 in-person EBCs**
- Served approximately **425 participants** seeking to transition to civilian careers
- Maintained a **positive impact** in program quality and value, drawing a favorability rating of **4.85 on a 5.0 scale**
- **Earned feedback from 100%** of program participants saying they would recommend it to another transitioning servicemember or Veteran

Women’s Employment Bootcamp

Deloitte’s Physical Health & Well-being team continued to deliver its Women’s Employment Bootcamp (WEB) program to more than 125 female Veterans, wounded warriors, and military spouses with the Wounded Warrior Project. Expanding upon its first delivery in 2022, the Deloitte WEB team traveled to four locations across the United States: Jacksonville, Florida; San Diego, California; Virginia Beach, Virginia; and San Antonio, Texas. The two-day event covered a full range of didactic content including strengths, transferable skills, elevator pitch, networking, resumes, and interview techniques. The event closed with in-person and virtual mock interviews from local employers, as well as guidance from a panel of local women Veteran leaders.

Train-to-Hire/Hire-to-Train

Our foundational Veteran recruiting programs, Train-to-Hire/Hire-to-Train (T2H/H2T), allow our teams to successfully leverage the leading Veteran talent to help create a diversified workforce, ultimately delivering innovative client solutions. Our T2H/H2T strategies provide Veteran hiring opportunities such as the T2H Hiring Our Heroes Fellowship program and in-house H2T programs focused on training Veterans in technical programs and competencies like ServiceNow and Workday. These programs not only instruct on-the-job-specific training, they also provide long-term career paths in important areas such as artificial intelligence, cybersecurity, strategy and analytics, human capital, enterprise performance, and supply chain. Deloitte uses the T2H and H2T approach to attract high-caliber talent and bridge the gap between the experienced military community and the civilian workforce. Over the last year, our T2H and H2T strategies were instrumental in strengthening Veteran hiring across the organization. Deloitte employs more than 3,000 Veterans, with many bringing technical skills that are in high demand.
Waypoint ‘23

In June 2023, Deloitte and Workday hosted Waypoint ‘23, the third annual diversity, equity, and inclusion (DEI) program and Veteran recruitment event, in San Diego. With the support of five Veteran nonprofit organizations, VMSA West, Deloitte staff in San Diego, and Echelon Front, we welcomed more than 50 active-duty servicemembers and more than 50 Deloitte and Workday professionals to accomplish our two-part mission: develop leaders and recruit Veterans.

During the first portion of the event, members of the Deloitte + Workday US alliance team across business functions including sales, marketing, delivery, product, and more, listened to a retired US Navy SEAL officer examine leadership principles of the military elite and discuss how to apply them to our alliance teams. The presentation was insightful, powerful, and demonstrated that professionals, no matter their experience, background, or education, can learn from our nation’s military.

Next Deloitte and Workday introduced their former military employees and recruiters to mentor the Veteran audience about career opportunities, navigating the recruitment process, and building a personal brand to help facilitate the transition from military service. The program concluded with a networking reception including food, drink, and camaraderie.

“In a few short hours, more than 100 of us discussed how Deloitte and Workday approach Veteran hiring initiatives, insight on building our brands, navigating the hiring process, and expectations with compensation negotiations. Creating this opportunity to learn and network with Veterans and non-Veteran employees proves that their commitment is part of their culture.” — Tom Chhabra, US Army Command and General Staff College

“This event showcased the commitment of Deloitte and Workday to support transitioning active-duty military and Veterans. It was an immersive experience with tailored sessions, informative workshops, and networking opportunities specially designed to address the unique challenges and aspirations of Veterans.” — Frank Oblinsky, US Navy Tactical Information Operations Analyst
Veterans Employment Summit

The Deloitte Veterans Employment Summit is a collaboration among Deloitte, Hire Our Heroes USA, and other Veteran service organizations to support Veteran employment by interfacing directly with human resources (HR) professionals and hiring managers through a series of in-person and virtual conferences bringing them information and tools to help Veteran employment programs. The goal is to empower hiring managers, Veteran recruiting program leaders, and HR personnel to understand the challenges around recruiting, hiring, and retaining Veteran talent and to equip them with tools to support Veterans.

From August 2022 through July 2023, the team hosted two in-person summits in Los Angeles and San Diego and two virtual summits, reaching more than 200 hiring managers and organizations, on topics ranging from why Veterans leave organizations, hiring for cultural fit, supporting military spouses, and which demographics of the Veteran population are most likely to leave by military rank and tenure. In addition, the Deloitte team is preparing the research phase of the first-ever Deloitte eminence paper on leading practices for hiring and retaining Veterans as well as a breakdown of military jargon and explanations of typical training and experience through military rank structure.

The Veterans Employment Summit will continue to advocate for the diverse Veteran population by expanding summits to Phoenix, Arizona, in October 2023 and to the mid-Atlantic in early 2024. Milestones in 2023 include:

- All attendees (100%) responding to feedback requests found the summit pertinent to improving their respective Veteran hiring programs.
- Among responding virtual attendees, 100% expressed interest in attending another in-person summit targeted at their region.
- Similarly, 100% of virtual attendees said they would attend another virtual, industry-specific summit.
- Among in-person attendees, 94% said they are interested in attending another in-person summit targeted at their region.
- Most (89%) responding in-person attendees said they would attend a virtual, industry-specific summit in the near future.
Deloitte Fellowship programs

The Deloitte Department of Defense Fellowship program has hosted more than 85 fellows since its inception in 2018. Our 2022–23 cohort included fellows from Air Force Education with Industry, Army Training with Industry, Secretary of the Navy, Secretary of Defense, Skillbridge, and Senior Hiring Our Heroes.

This past January, the fellowship hosted its most high-profile Company Day, an event led by Secretary of Defense fellow Lieutenant Colonel Mel Thurman. With a theme of “leading enterprise transformation,” the Fellowship hosted presentations, panels, and engaging discussions around Tech Trends, DEI, Purpose, the Deloitte Greenhouse and transformational capabilities.

In a program highlight, Dan Helfrich, CEO of Deloitte Consulting LLP, provided insights in a fireside chat regarding his leadership style, drawing upon his personal experiences as a leader. He explained his leadership philosophy of embracing “Everyday Equations,” themed statements that serve as reminders for how leaders can behave and lead.

For the third year in a row, fellows were distributed across the United States alongside their project and fellowship support teams and participated in a hybrid manner. They had the opportunity to travel to client engagements outside their home office geographic locations and meet with clients both in-person and remotely. Fellows leveraged this opportunity to participate in a wider array of projects, trainings, and events across multiple practice areas and offering portfolios.

With much excitement, fellows again attended programming at Deloitte University, gaining exposure to Deloitte leaders, utilizing innovation frameworks, networking broadly across practice areas, and participating in case studies to fully immerse themselves in Deloitte’s training philosophy. For the first time in Fellowship history, the team was also able to host an alumni event, which enabled current and former fellows to network and learn from one another.

Fellows continue to proactively immerse themselves in Deloitte culture, learn industry-leading practices, and gain valuable knowledge to bring back to their next military commands. Program milestones in 2023 include:

- **26** fellows supported
- **83** leadership engagements
- **40** completed trainings
- **4** large-scale events
- **22** project shadow opportunities
Senior Veteran Fellowship

The Senior Veteran Fellowship (SVF) program continues to expand into new strategic growth areas while continuing to support Veterans transitioning to civilian careers. In 2023, the SVF program expanded beyond the Government and Public Services sector into the commercial practice and internal enabling areas.

For the first time in 2023, the SVF program placed fellows outside the traditional Department of Defense accounts into five new accounts—US Borders, Trade and Immigration; US Department of Justice; US Agency for International Development; US Department of Veterans Affairs, US Department of Homeland Security—and four new Offering Portfolios and service offerings—Customer & Marketing, Regulatory & Legal Support, Cyber & Strategic Risk, and Deloitte Digital.

The 2023 SVF matched 2022’s record and hosted 15 SVF events during the calendar year, including three on-site visits at Deloitte’s Rosslyn, Virginia, office where 15 fellows and more than 20 partners, principals, and managing directors participated in numerous leadership panel discussions and mentoring sessions. Senior enlisted, warrant officers, and senior officers from the Air Force, Army, Navy, and for the first time, Coast Guard and National Guard were also represented this year.

“The Senior Veteran Fellowship was invaluable to my Deloitte journey. Not only did it allow me to learn about Deloitte (and vice versa), it also provided a low-stakes environment to better understand consulting, refine my value proposition, and network with leaders. This, in turn, has provided me with an opportunity to have an impact upon starting full time. I can't recommend it highly enough to other retiring servicemembers.”
— P. Neel de León, LTC US Army (Ret.)

“Deloitte’s Senior Veteran Fellowship is a paradigm shifting initiative that enables transitioning senior military servicemembers a low-risk, high-reward opportunity to ‘test drive’ a global professional services network, and at the same time, allows Deloitte to mentor and coach the servicemember to see if there is mutual benefit and interest. I recommend this opportunity to those transitioning servicemembers who are in search of an opportunity to network, learn, and grow.”
— Ben Inners, Lt Col US Air Force (Ret.)

“Deloitte’s Senior Veteran Fellowship afforded me the opportunity to work outside of the military and learn how my knowledge, skills, and abilities transferred to a different sector. Deloitte offers a great program, providing military Veterans to serve as coaches and mentors, granting access to senior leaders, and offering the opportunity to work on client projects. Deloitte has a steadfast commitment to the Veteran community, whether seeking employment with the organization or hoping to learn a little about a professional services firm and life after the military. The program had a profound impact on me, aided in my transition, and made my post-military career decision that much easier.”
— Tom Campbell, LTC US Army (Ret.)
Advanced Degree Veteran Forum

The Advanced Degree Veteran Forum (ADVF) was first conceptualized by a team of Veterans at Deloitte as a way to better prepare transitioning servicemembers for life in consulting and the private sector more broadly. This initiative aims to accelerate attendees’ journeys toward successful consulting careers and to cultivate new leaders within Deloitte through in-person sessions including experiential learning, collaborative working groups, and networking opportunities for accomplished Veteran graduate students.

For the ninth consecutive year, Deloitte’s ADVF leaders, along with a dedicated team of practitioners representing many consulting offerings and personnel from numerous support businesses, will sponsor more than 40 high-performing Veteran participants from more than 25 graduate schools. Each year, the event receives support from more than 30 volunteers to deliver an ever-evolving curriculum to attendees, including favorites such as speed networking and mock interviews.

Several integration points across the broader Advanced Degree Diversity Conferences (ADDC) encourage inclusion, networking, and collaboration among all participants. As of 2023:

- **7** attendees from ADVF 2022 completed the Summer Associate Program and received full-time offers.
- **More than 250** ADVF Alumni connected via LinkedIn.
- **More than 40** Deloitte Veterans have participated and contributed over the past year as volunteers.
- **7** integrated forums have been offered under the ADDC banner: ADVF, Deloitte Women’s Leadership Launch (DWLL), Deloitte Consulting Immersion Program (DCIP), and Embracing Your Authenticity (EYA).
- **ADVF 2023** kicks off at Deloitte University in December.

Special Operators Transition Foundation

Perhaps one of the most unique groups of Veterans are the former operators of our United States Special Operations Forces. As the preeminent fighting forces in our military, this group of highly skilled Veterans have successfully navigated the most intense trainings offered by the Department of Defense. Deloitte recognizes that their training transfers into the civilian sector and yields enormous positive impacts for the organization and its clients. That is why Deloitte is a proud strategic hiring collaborator for the Special Operators Transition Foundation (SOTF).

SOTF is a national 501(c)(3) non-profit dedicated to helping elite Veterans transition from highly distinguished special operations military careers to the private sector. Its mission is to cultivate employment opportunities for Special Operations Forces Veterans, providing mentors with a personalized step-by-step action plan to help candidates transition to positions that best align with their interests, strengths, and preferences. Since 2021, Deloitte has placed approximately 17 of these exceptional Veterans across various Consulting and Advisory functions, including two recent SOTF hires as part of the Hiring Our Heroes fellowship program.
Petty Officer Second Class Jess Meaders
US Coast Guard Reservist and Consultant,
Deloitte Transactions and Business Analytics LLP

“As a consultant within Intelligence & Investigations under GPS Advisory, I support the Organized Crime and Drug Enforcement Task Force (OCDETF) on the DOJ account. I currently serve in the Coast Guard Reserve as an Intelligence Specialist out of Sector Maryland-National Capital Region. I am a 3rd generation Coastie following my grandfather and father, who is an active-duty Coast Guard commander in Cleveland, Ohio. At OCDETF, I work with many different federal agencies, including active-duty Coast Guard members, with whom I was immediately able to build a rapport despite being a brand-new contractor. Being a Coast Guard Reservist allows me to form instant connections with both Deloitte clients and Deloitte colleagues who have their own military associations. With the Coast Guard, I work primarily in law enforcement intelligence as well as crisis management and response, which is similar to what I get to do every day on client site! This means that even on military orders, I am developing and refining my knowledge and skills to bring back to Deloitte clients. With my G.I. Bill benefits as well as Coast Guard tuition assistance, I am also earning an M.Ed. in Leadership and Organization Development from which I am able to incorporate readings and reflections into my client and military work. Working for Deloitte, I have found that my military service is not only supported but applauded. I am grateful for my leadership and colleagues in helping me to balance my full-time job with my graduate degree studies and military career and have fun doing it!”
Strength in diversity

Celebrating the strength of our diversity, fostering a culture of inclusion, and leveraging unique experiences to accomplish a common goal.
**Fostering inclusion.** Deloitte has long been committed to cultivating an environment where diversity and inclusion thrive, helping to ensure a community that embraces the unique experiences and backgrounds of our diverse workforce. That is why Deloitte emphasizes the need to have representation from all walks of life with practitioners who bring unique perspectives that can develop the best solutions for our clients. Our Veterans bring a unique blend of skills, experiences, and values honed through their service, enriching Deloitte’s culture and capabilities overall. With hundreds of different jobs across the military branches, each Veteran has a distinct and highly individualized story. Deloitte understands the value of the diverse perspectives VMSA practitioners bring to the organization and our clients. Their unique identities strengthen Deloitte’s diverse workforce. The integration of actively serving Reserve and Guard members into the Deloitte family is an example of how inclusivity transcends organizational boundaries. That is why Deloitte actively pursues opportunities to highlight the extraordinary life experiences of our VMSA practitioners. We are passionate about helping Veterans by providing them an inclusive and meaningful environment where they can express themselves openly and freely. We do this by creating and sponsoring impactful programs that celebrate and uplift the VMSA community. According to the Military Friendly rating, Deloitte exceeds the standard in the 6 categories of Recruiting & Sourcing, Policies & Compliance, Support & Retention, Culture & Commitment, Opportunity & Advancement, and Hiring & Onboarding.
Military Spouse Initiative

While Deloitte understands the unique challenges Veterans face when leaving the service, we also recognize the transition is often not made alone. Military spouses often need support in finding and maintaining their careers both while their spouses are serving and when they are exiting the service. That is why Deloitte is proud to, once again, highlight the Military Spouse Initiative (MSI).

Deloitte’s inclusive culture, agile workforce, and demonstrated support for the Veteran community serves as a platform for MSI. The initiative helps foster a workplace that supports, attracts, and helps retain military spouses through peer-to-peer programs, transition support, and career development. Approximately 300 active-duty military spouses and more than 900 spouses of Veterans work at Deloitte. MSI offers active-duty and Veteran spouses and significant others a space where they can lean on and learn from each other as well as utilize Deloitte resources to not just have a job but build a career. MSI offers support to practitioners in the following unique ways:

• Deloitte and MSI provide a workplace that supports military spouse ambitions while honoring military commitments. The programs within MSI support military spouses’ internal transfers within Deloitte due to Permanent Change of Station orders.
• Community calls and an annual leadership summit offer professional development programs and facilitate community connection.
• Professional development and mentoring to external active and former military spouses to help address the military spouse community’s un- and underemployment.

Outside the unique identities Deloitte military spouses bring to the organization, Deloitte military spouses bring innovative thinking and personal experience to military family-related client projects. MSI supports active pursuits and projects in the Defense, Security, and Justice (DS&J) Sector with specific insights related to the military family experience, which is often a market differentiator. Since last year, Deloitte has made significant strides in taking the MSI to the next level by hosting the first ever Hiring Our Heroes military spouse fellow in September 2022, after extending the first offer through the program. To gain a better understanding of the needs from the MSI community, Deloitte launched the new member survey to capture metrics and strategize on new ways to make an impact.

While there are programs at Deloitte for military spouses, Veterans, and those still serving, there are also ways for members of the VMSA community and the organization at-large to continue supporting our nation’s Veteran and military community. Deloitte has identified many collaborators who also support military servicemembers as they transition out of service, helping them identify their strengths,
their unique identity, and the value they can bring to organizations as a civilian.

Additionally, the MSI has recently launched the Battle Buddy program. The purpose of the program is to provide support to MSI members who have a deployed or mobilized partner.

Types of support provided includes guidance and answers to deployment-related inquiries, regular well-being check-ins, valuable resources to aid in navigating the deployment experience, an understanding ear to listen to concerns and challenges, and meaningful relationships that extend beyond the deployment period.

**What advice do you have for fellow MSI members?**

“Try to talk to as many MSI members as possible, as they are all so amazing and can offer advice and insights into navigating the world of Deloitte as a [collaborator] to someone serving in the military.”

—Katish Sussman

“Leverage your support system. Life is not meant to be carried alone.”

—Leigh Gaymon

“I researched Deloitte’s MSI page and was inspired to see so many successful, career-driven spouses. When I found the job posting for my current role, it sounded too good to be true! I immediately applied and luckily got an interview. I am truly living my best life in my dream role on a wonderful team.”

—Nina Dahl

 “[MSI] really spoke to me, allowing me the confidence to maintain success in my career and employment while moving to various duty stations with my significant other across the nation. Moving every few years is no small undertaking. Changing your address, moving away from friends and family to be relocated to somewhere new has effects on a family. Deloitte’s resources really supported me through our transition.”

—Alyssa Case

**Dog Tag Bakery**

Deloitte has participated in the Dog Tag Fellowship program, supporting the organization as it brings value to the military community for almost 10 years. Dog Tag, Inc. is a nonprofit organization which supports post-9/11, service-disabled Veterans, spouses, and caregivers during a five-month entrepreneurial fellowship as they transition to civilian life. The collaboration has afforded Deloitte the opportunity to facilitate resume reviews, conduct mock interview sessions, host coffee chats, create network opportunities, and facilitate 18 Business Chemistry workshops for the fellows. Deloitte effectively shifted to providing support to the fellows in a hybrid capacity in response to COVID-19. Practitioners were able to maintain a connection with the fellows, allowing them to maintain momentum and continue their transition from military service uninterrupted. Deloitte is proud to participate in custom fellowship programming as this inclusive, evolving program represents the fabric of today’s military. Dog Tag welcomes all—Veterans, spouses, and caregivers—inclusive of gender, race, ethnicity, disability, and regardless of whether a person has a crystallized transition plan or is facing uncertainty. Dog Tag brings forward open-minded volunteers and inclusive practitioners to support its incredible mission, alumni base, fellows, and staff. Deloitte was excited to support Dog Tag Inc. in its expansion to Chicago in 2022 and looks forward to continuing to support the military community with Dog Tag in the future.
Major Taylor Bates  
US Marine Corps Reservist and Senior Consultant, Deloitte Consulting LLP

“I am a ServiceNow Developer within our Enterprise Performance/Technology and Services Optimization practice and a proud Marine! Prior to Deloitte, I served as a Logistics Officer in the United States Marine Corps. During my nine years on active duty, I had the opportunity to deploy to Afghanistan as a Motor Transport Platoon Commander, assume Company Command at a Marine Corps Recruit Depot/MEF Support Battalion, and serve as an Operations Officer. Upon transitioning to the Reserves, I learned additional skills and became a Civil Affairs Officer. I hold several collateral duties at my unit, including serving as the ESGR representative. In this role I help ensure our Reservists and their employers are aware of their rights and responsibilities under the Uniformed Services Employment and Reemployment Rights Act.

I joined Deloitte in June 2020 during the height of COVID through the ServiceNow Veteran Cohort. This hire-to-train program gave me an incredible opportunity to learn new skills and utilize my Master’s Degree in IT Project Management. Since that time, I’ve worked on numerous projects and proposals at Deloitte. I’m also part of the Human Capital TalenTrace Career Pathing team that is responsible for developing and deploying the asset to various federal clients. Deloitte is supportive of my required Reserve training and my time spent on orders, allowing me to balance both careers. I was drawn to Deloitte GPS so I could give back to the military by bringing industry standards to an organization that taught me so much. I love the professional development at Deloitte and being surrounded by peers who challenge me in new and different ways. I’m lucky to have found the camaraderie that I had in the Marine Corps among my peers and leadership at Deloitte.”
“I am currently a Navy Reservist at SEAL Team 17 in Coronado, California, and I’ve always had a strong sense of patriotism and pride with regard to the US military. Joining and serving in the military, now going on 21 years, has always been a proud achievement in my life. There is nothing more important than the safety, security, and well-being of family and those close to me. Protecting the lives and interests of the United States is essential to our freedom and our way of life. That has driven me and shaped who I have become both professionally and personally. Since joining Deloitte more than 8 years ago, I’ve experienced that Deloitte and so many professionals I’ve met are great supporters of what I do and support Veterans in general. A career at Deloitte has allowed me to use many skills I fine-tuned in the military. The attributes that I bring as a leader of my teams here at Deloitte—currently as the One Team Manager for the Orange County and San Diego offices—include being accountable, showing integrity, and being courageous especially in communication. Lastly, when times are tough, I look at my training I received over the years where I remind myself to simply get ‘back to the basics.’ This has allowed me to focus on the fundamentals essential to being an effective business leader, husband, and father.”
Warrior ethos

Investing in the health and well-being of our nation’s Veterans by sponsoring events that uplift and show our gratitude.
Doing our part. Deloitte understands the magnitude and importance of supporting Veterans as they navigate the struggles from the wounds of war. For wounded warriors, the battle doesn’t stop when they return home. According to the American Legion, approximately 1.8 million Veterans live with a recognized disability as a result of service during the Global War on Terrorism; and the US Bureau of Labor Statistics estimates there are approximately 4.3 million Veterans from all conflicts combined who have a service-connected disability.

Supporting Veterans goes beyond the corporate space. Deloitte is proud to continue our stalwart support of Physical Health and Well-being (PHW) initiatives that provide lasting meaningful impacts to Veterans and active servicemembers who seek to find growth and healing despite physical and mental adversities. Year in and year out, Deloitte practitioners—both Veteran and non-Veteran—report that PHW programs are a career highlight because of the direct interaction they have with many of our nation’s disabled or injured Veterans. The impact these programs have on both recipients and volunteers alike is a true testament to the power of Deloitte’s PHW program. Deloitte currently sponsors multiple athletic events that bring the Veteran community together as well as events that promote wellness in other ways. We are honored to continue our support into the future.
**Warrior Games Service Trial Competitions**

Since 2014 Deloitte has sponsored and sent volunteers to the Service trials where servicemembers compete to qualify for the Warrior Games. The trials feature a lead-up competition of wounded, ill, and injured servicemembers in a military adaptive sports competition. Teams include servicemembers and Veterans with upper-body, lower-body, and spinal cord injuries, traumatic brain injuries, visual impairment, serious illnesses, and post-traumatic stress. This year, the athletes competed in archery, cycling, shooting, sitting volleyball, swimming, track and field, wheelchair basketball, indoor rowing, and powerlifting, with aspirations to make their respective Service teams and represent at the Warrior Games at Walt Disney World in Orlando, Florida.

Deloitte was able to support the Warrior Games Service Trials providing nearly 100 volunteers across the Marine Corps Trials in Oceanside, California; Navy Trials in San Diego, California; and Air Force Trials in Las Vegas, Nevada.

**National Disabled Veterans Winter Sports Clinic**

The Disabled Veterans Winter Sports Clinic is the largest rehabilitative program of its kind in the world. This clinic specifically focuses on hosting Disabled Veterans with spinal cord injuries, amputations, neurological disorders, and visual impairments. Supporting this initiative since 2007, Deloitte was honored to participate this year as a host-level sponsor incorporating a diverse set of activities including alpine and Nordic skiing, snowmobiling, scuba diving, wheelchair self-defense, rock wall climbing, sled hockey, and goal ball for the visually impaired. The Winter Sports Clinic experience is tailored to improve physical well-being, mental health, and self-esteem, empowering Veterans to rediscover life after disability. As part of this event, Deloitte has historically provided volunteers from the Military Health System, Veterans Affairs, and other accounts to support event execution and participant activities. In 2023, Deloitte provided 40 volunteers and 10 VIPs who supported for an entire week in Snowmass, Colorado.
National Veterans Wheelchair Games

Founded in 1981 as a competitive outlet for Veterans with spinal cord injuries, multiple sclerosis, amputations, and other central neurological impairments, the National Veterans Wheelchair Games sought to increase independence and quality of life through wheelchair sports and recreation. As the sponsor of the powerlifting event, Deloitte was thrilled to send 20 volunteers to the games this year in Portland, Oregon.

National Veterans Summer Sports Clinic

The Veterans Summer Sports Clinic focuses on recently injured Veterans and introduces the many adaptive recreational opportunities available to them such as sailing, track and field, surfing, kayaking, and cycling. A nationwide program, this clinic is designed to combine therapy provided through daily rehabilitation programs with the feelings of independence participating in athletic events provided to Veterans learning to live with injuries ranging from brain trauma to limb loss. Beginning in 2017, Deloitte collaborated with the Department of Veterans Affairs to sponsor the Surfing Venue for recently injured Veterans. In 2023, Deloitte provided 40 volunteers for a week at La Jolla Shores, California. The Clinic promises a weeklong journey of exploration and accomplishment in water and summer sports for Veterans in locations across the country.

Marine Corps Marathon celebration weekend

Organized by the people of the United States Marine Corps, the Marine Corp Marathon (MCM) is the largest marathon in the world that does not offer prize money, instead celebrating the values ingrained in each Marine: the honor, courage, and commitment of all finishers. Annually ranked as one of the largest marathons in the United States, the MCM has tested many Americans including Deloitte professionals. In 2023, Deloitte collaborated with Semper Fi Fund to support their MCM Celebration Weekend. The Fund is the largest charity partner of the MCM and operates an independent hospitality and event program for hundreds of families and guests over the marathon weekend. Deloitte provided 40 volunteers to support the Celebration Weekend’s three signature events: Family Carnival, Community Athlete Night, and VIP Reception.
National Disabled Veterans Golf Clinic

The National Disabled Veterans Golf Clinic is a weeklong adaptive golf program presented by the US Department of Veterans Affairs and Disabled American Veterans. This annual event promotes rehabilitation by instructing Veterans with specific life-changing disabilities in adaptive golf in addition to other adaptive recreational sports. Deloitte sponsored this event for the second time in 2023, providing 20 volunteers to support in Iowa City, Iowa.

National Veterans Golden Age Games

The National Veterans Golden Age Games (NVGAG) is the premier senior adaptive rehabilitation program in the United States and the only national multi-event sports and recreational seniors’ competition program designed to improve the quality of life for all older Veterans, including those with a wide range of abilities and disabilities. The NVGAG is one of the most progressive and adaptive rehabilitative senior sports programs in the world. Deloitte sponsored this event for the second time in 2023, providing 20 volunteers to support in Cedar Rapids, Iowa.
“I enlisted in the Air Force back in 2011 as a Geospatial Intelligence Analyst. I was looking for a change of pace at a pivotal moment in my life, and to this day I attribute a lot of my own personal growth and development to that decision. I was a Full Motion Video analyst at Langley Air Force Base until 2014, and during that time I provided intelligence support to our warfighters on the ground during numerous operations in the Middle East. I left active duty to join the California Air National Guard in 2014; I spent the next few years supporting the intelligence field both as a drill-status Guard member and as a contractor while pursuing degrees in Psychology and Industrial/Organizational Psychology. I joined Deloitte six months after earning my master’s degree and connecting to a recruiter through LinkedIn. Deloitte has been integral in providing me with a meaningful career while continuing to support me in my military service. While I serve our clients through training, change management, and culture efforts, I also continue to support the military with deployments, wildfire support, DEI barrier analysis, and more. I feel a true sense of community with Deloitte, whether I’m supporting our VMSA community or serving our wide range of clients, I am proud to be surrounded by a diverse group of peers looking to make a positive global impact.”
Puppy with a Purpose

In the Summer of 2021, Deloitte sponsored its first Corporate Puppy with a Purpose, providing a life-changing service dog companion aimed at improving the quality of life for Veterans. The Puppy with a Purpose program is made possible through Deloitte's relationship with America's VetDogs and its sister organization, the Guide Dog Foundation. Given the positive response and campaign impact, Deloitte continued our journey by sponsoring a second Corporate Puppy with a Purpose in the Fall of 2022. Deloitte's sponsorship deepens our commitment to military Veterans and their families. Our Corporate Puppies with a Purpose are voluntarily raised (and trained!) by Deloitte's US Chief Innovation Officer, Deborah Golden. Volunteer puppy raisers are a vital part of each service dog’s journey to their handler. As part of this commitment, which typically covers a 12–14 month raising period, service dogs in training work together with their handlers to establish a foundational set of skills, obedience, and socialization. During this time, the handler and service dog in training travel the country to meet with communities and increase the education and awareness of the exceptionally positive impacts of service dogs. As a result of Deloitte's sponsorship of a Corporate Puppy with a Purpose, there has been successful raising and training of a number of future service dogs, the program has been able to effectively scale the education and awareness of the impact of service dogs on our communities, and there has been a tremendous building of goodwill and visible community action both within the organization and outside of it.

Tomb of the Unknown Soldier

The Tomb of the Unknown Soldier is a monument dedicated to the services of an unknown Soldier and symbolizes all Soldiers who have died in war whose identities remain unknown.

In honor of Veterans Day in 2022, 40 Deloitte Businesses, Global and Strategic Services (BGS) professionals attended a wreath laying ceremony at the Tomb of the Unknown Soldier as well as a guided tour of Arlington National Cemetery. Four BGS professionals who are also Veterans (Heather Kuzio, Richard Leaton, Jim Payne, and Amanda Taylor) had the
honor of being escorted by the Sentinels and placing the BGS-sponsored wreath on the Tomb after the changing of the guard.

**Wreaths Across America**

Wreaths Across America (WAA) is a non-profit organization that organizes events each year at our national cemeteries to remember our fallen US Veterans and honor those who serve by laying wreaths on headstones. WAA organizes the events across the United States and a few overseas including request for volunteers (laying and distributing wreaths), teaming locally to support the event, and providing an avenue for individuals or groups to sponsor wreaths.

Deloitte has participated in the event for a number of years. Over the past three to four years, Deloitte has worked to expand its footprint outside of the Rosslyn office to include other sites across the United States. Deloitte’s participation includes organizing volunteers to attend and teaming with local organizations/sponsors. Deloitte’s impact has spread across 20 different locations, involving more than 400 volunteers.

**Veteran Suicide Prevention Workshop**

In October 2022, Deloitte and the American Foundation for Suicide Prevention designed and hosted a hybrid two-day Veteran Suicide Prevention (VSP) Workshop to identify actionable challenges and associated approaches to reduce risk factors relating to suicide among three unique Veteran populations—Rural, American Indian/Alaska Native, and Women Veterans.

With more than 100 representatives from more than 114 government, non-profit, private, and academic organizations across 41 states, our three workgroups were able to identify activities for suicide prevention which align and support key guiding strategies: 1) White House strategy on Reducing Military and Veteran Suicide, 2) Department of Veterans Affairs National Strategy for Preventing Veteran Suicide, and 3) the National Action Alliance’s work to advance public private collaborations and innovation to transform communities.
We had great participation from the Department of Veterans Affairs and Congressional leaders to consider the potential roles of those offices and their priorities within the actions developed during the Workshop. Highlights from this event included:

• Veterans’ lived experience navigating challenges/seeking support to reduce suicide risk

• Capitol Hill perspective on Veteran suicide prevention and what’s being done at the legislative/policy level to address this crisis from Heather O’Beirne Kelly (House Committee on Veterans’ Affairs (HVAC) Majority Staff), Congressman Seth Moulton (D-MA), Chairman Mark Takano (D-CA), and Senator Bill Cassidy (R-LA)

• Moderated panel focused on the shared imperative across Departments with Dr. Shereef Elnahal (Under Secretary for Health for Veteran Affairs), Terri Tanielian (Special Assistant to the President on Veteran Affairs, White House Council on Domestic Policy Council), and Gil Cisneros (Under Secretary of Defense for Personnel and Readiness)

• Remarks from Dr. Tamara Campbell, Acting Executive Director for Veterans Health Administration Office of Mental Health and Suicide Prevention

The VSP workshop yielded important insights by bringing together government, research, policy, service provision, and lived experience perspectives to outline priorities for reducing Veteran suicide within each group. In addition to workgroup specific and tailored actions, there were commonalities across all groups including the importance of access to care, meeting core needs (transportation, childcare, housing, etc.), the need for culturally appropriate/tailored resources, recognition of differing identities within the Veteran world, and connectedness to a community. Actions that were discussed during the workshop were further explored and discussed to create community action.

Advancing suicide prevention requires a whole community approach. Over the last 12 months, our workgroups have advanced efforts focused on tools including inventories, smart sheets, learning objectives, webinars on emergent topics, and smaller convenings. Our team remains engaged
with senior leadership with this important effort. While this has been a significant accomplishment, there is still much to be done to take these items and implement/utilize them within our local communities. We are optimistic and energized by the continued engagement and dedication of each of our workgroup members, and we are excited for the next chapter of this work to unfold.

Deloitte has a longstanding history of providing support to the Veteran community, including our teammates internally, Veterans in the community, and Veterans within the Department of Veterans Affairs system. This mission is personal to us—Deloitte is committed to furthering Veteran suicide prevention efforts by tapping into our collective power, assets, resources, capabilities, and subject matter expertise and convening those with lived experience, specialized knowledge, and deep understandings of these three communities.

**Honor Flight**

Honor Flight recognizes the bravery, determination, and patriotism of our nation’s senior war Veterans with a one-of-a-kind journey to Washington, D.C. The trip is only one day, but the experience is life changing. The centerpiece of the Honor Flight programming is the Day of Honor in Washington visiting the memorials built in tribute to the service of our Veterans from WWII, the Korean War, and the Vietnam War. This trip is provided at no cost to the Veteran and is intended as a heartfelt thank you for their service and sacrifice from a grateful nation. Deloitte sponsored this event for the Chicago Honor Flight for the first time in August 2019, providing 20 volunteers and reaching more than 100 Veterans throughout 2023. Additionally, Deloitte practitioners in the D.C. area gather to greet Honor Flights as they land at Dulles International Airport and give these heroes the welcome they deserve.
Meet the 2023 VIR team

Anna Wyant, 2023 VIR Lead
Manager, Rosslyn Office
Deloitte Consulting LLP

I’m honored to lead this year’s VIR and couldn’t ask for a better team to share Deloitte’s efforts to support the VMSA community. As an Air Force Reserve public affairs officer and Air Force spouse, I’m proud to highlight my fellow Veterans, military spouses, Reserve and Guard members, and countless allies we have across Deloitte.

Jim Payne, VIR Executive Support
Senior Manager, Atlanta Office
Deloitte LLP

Serving our Veteran Community, whether by being a part of this VIR team or participating in our various CORE programs, is the most personally rewarding work I do at Deloitte. As a Veteran of the US Army, I’m deeply appreciative of the investment Deloitte makes in the VMSA community.

Tammy Whitehouse, VIR Writer and Editor
Manager, Cincinnati Office
Deloitte Services LP

As a civilian with many immediate and extended family members who have served in the US Navy, US Marine Corps, US Army, and US Air Force, I am grateful beyond words for the sacrifices and commitments of our servicemembers, Reservists, and Veterans, and their families. I am humbled and proud to support our VMSA community within Deloitte.

Makayla Rose, VIR Writer
Consultant, Cleveland Office
Deloitte Consulting LLP

I am thankful for the opportunity to oversee the “Warrior Ethos” section of the VIR; it was amazing to capture all of the great work being completed by the VMSA community. As an Army Veteran, I am proud to highlight my fellow Veterans, the military community, and endless allies within Deloitte.
As a currently serving Air Force Reservist, I have personally been the beneficiary of Deloitte’s above-and-beyond support to the Reserve and Guard. As such, it was a privilege to work alongside this dedicated VIR team and bring awareness to the impactful ways Deloitte invests in the VMSA community and celebrate them. Thank you to all Veterans, and their families, who have sacrificed for us. We hope you find this report encouraging!

As a former active-duty Air Force weather officer, I’m honored to help support this year’s VIR and highlight Veterans within Deloitte. It’s been amazing to be on the VIR team while connecting with others in our VMSA community and hearing their stories.

I am very privileged to be given the chance to help draft this year’s Veteran Impact Report. As a current USMC Reservist, I want to be able to tell our story and help to highlight all the Veterans and Reservists who help make Deloitte the amazing organization that it is.

I feel privileged to be the graphic designer of this report. This is the third year that I’ve worked on it, and designing it gives me an opportunity to honor members of the military and Veterans for their courage and sacrifices. Reading the report and working with Veterans at Deloitte, you can see how much they contribute to our organization with their spirit, energy, and experience.
