

DELOITTE, DATAIKU & SNOWFLAKE

Data Modernization, Analytics, and a Democratized AI Lifecycle at Scale

Deloitte helps you use Snowflake and Dataiku as part of an end-to-end analytics ecosystem that delivers faster insights, greater efficiency, and security and compliance in collaborative environment.

Data is the lifeblood of enterprise agility, and modern data and analytics ecosystem **can unlock faster insights, greater efficiency, and open the door to an AI-fueled future.** In a crowded marketplace of platforms and solutions, a challenge for many organizations is identifying the most appropriate path to data modernization and AI capabilities. A consideration is how to bridge the technical and process gaps that exist between data migration, cloud data analysis, and AI development. Ultimately, a modern data ecosystem needs to accommodate an efficient move to the cloud, permit scalable and cost-effective data access, and enable AI innovation in a way that democratizes data science and brings the best AI use cases to production. All this while also addressing factors around risk mitigation, security, compliance, and AI governance.

One path forward is working with Deloitte to use the Snowflake and Dataiku solutions as part of an **end-to-end analytics ecosystem.** Snowflake is a modern data platform that can increase data sources, improve data quality, and scale cloud capacity on demand. Dataiku helps mobilize more of your workforce to contribute to data preparation and AI innovation while also promoting governance and risk management. By bringing these complementary solutions together, users enjoy an intuitive analytics interface for visualizing data, making it easier and faster for the business to access insights and experiment with new ideas and capabilities.

We help you use Dataiku in the administration of the Snowflake platform, enabling new users, driving automation in data pipelines, and integrating with other workflow systems. With this, your data engineers can break out of siloed data environments and give line of business users the tools to mine for **insights and explore viable AI use cases.** This can enhance secure data sharing between business functions and help address common bottlenecks in data preparation.

Deloitte has worked with some of the largest enterprises in the world to help transform their business to use Dataiku and Snowflake. We have one of the largest Snowflake practices among professional services firms and are a trusted alliance with Dataiku. This is in part because we know how to help reduce risk in your data modernization by taking an automation-led approach with our accelerators and Migration Factory offering. We also know how to help you use Dataiku as a collaboration tool to explore and deploy differentiating AI use cases and activate new capabilities like Generative AI. Data scientists and engineers can benefit from automation with Deloitte's cross-industry and domain experience. Working with Deloitte, you can **enjoy confidence** when navigating a complex regulatory environment, as well as when mitigating emerging risks and enabling Trustworthy AI for model governance and compliance.

With Deloitte, Dataiku, and Snowflake, your business can **capture the efficiency and speed** of a modern data and analytics ecosystem and drive value and ROI for the enterprise.

Deloitte with Dataiku and Snowflake – Leaders in Data Modernization, Analytics, and AI

Deloitte is a Leader in 2023 Magic Quadrant™ for Data and Analytics Service Providers for 9th consecutive year

Deloitte was honored as the 2023 Snowflake GSI Partner of the Year

Deloitte was named as the 2023 Dataiku Global GSI Partner of the Year

Dataiku is a Leader in the Magic Quadrant™ for Data Science and Machine-Learning Platforms (2020 - 2022)

Snowflake was named a Leader in Gartner Magic Quadrant for Data Management Solutions for Analytics

Why Deloitte?

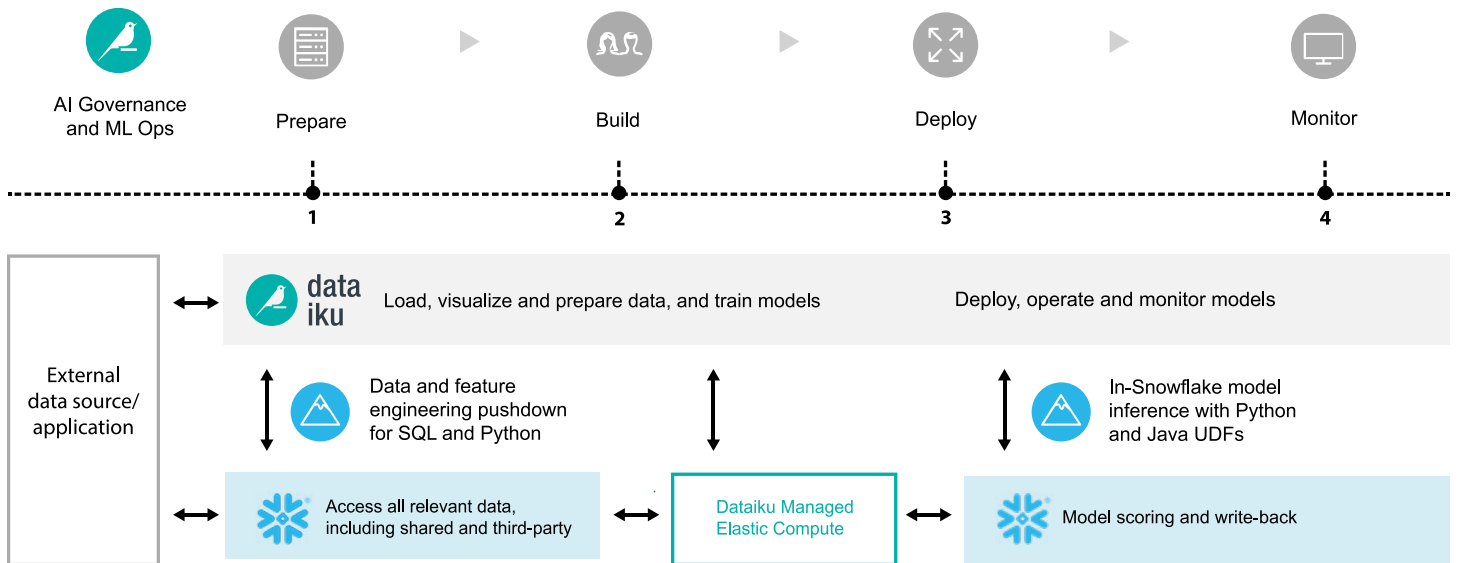

Cross-domain experience with a global network – With offices and human capital worldwide, including more than 400+ certified Dataiku practitioners and more than 5,000 professionals trained with Snowflake, Deloitte brings the depth and breadth of talent in nearly every industry to implement new platforms, transform processes, train the workforce, and identify value-driving AI use cases.

An ecosystem of capabilities – We have the archetypes, workbenches, data warehouse, and data cataloging tools to help amplify and accelerate your programs. With an ecosystem of vendor alliances to deliver the ideal tools for your enterprise goals, we know where Dataiku and Snowflake sit in your technology stack, how to maximize use and value, and how the solutions complement other technologies as part of your data modernization initiatives.

Leader in AI risk management and governance – Deloitte works with some of the largest organizations in the world to develop risk management, legal, regulatory, and MLOps processes that support compliance at scale. We know how to help you use Snowflake for secure, compliant data access, as well as how to leverage Dataiku to structure AI governance and documentation.

Trusted partner in technology deployment – With Deloitte's renowned human capital consultancy, we know how to help you prioritize your workforce capacity using Snowflake and Dataiku. We can lead change management and training for line of business users while also supporting smooth implementation that caters to business leaders and technologists alike.
