

Business Transformation with VMware Tanzu®

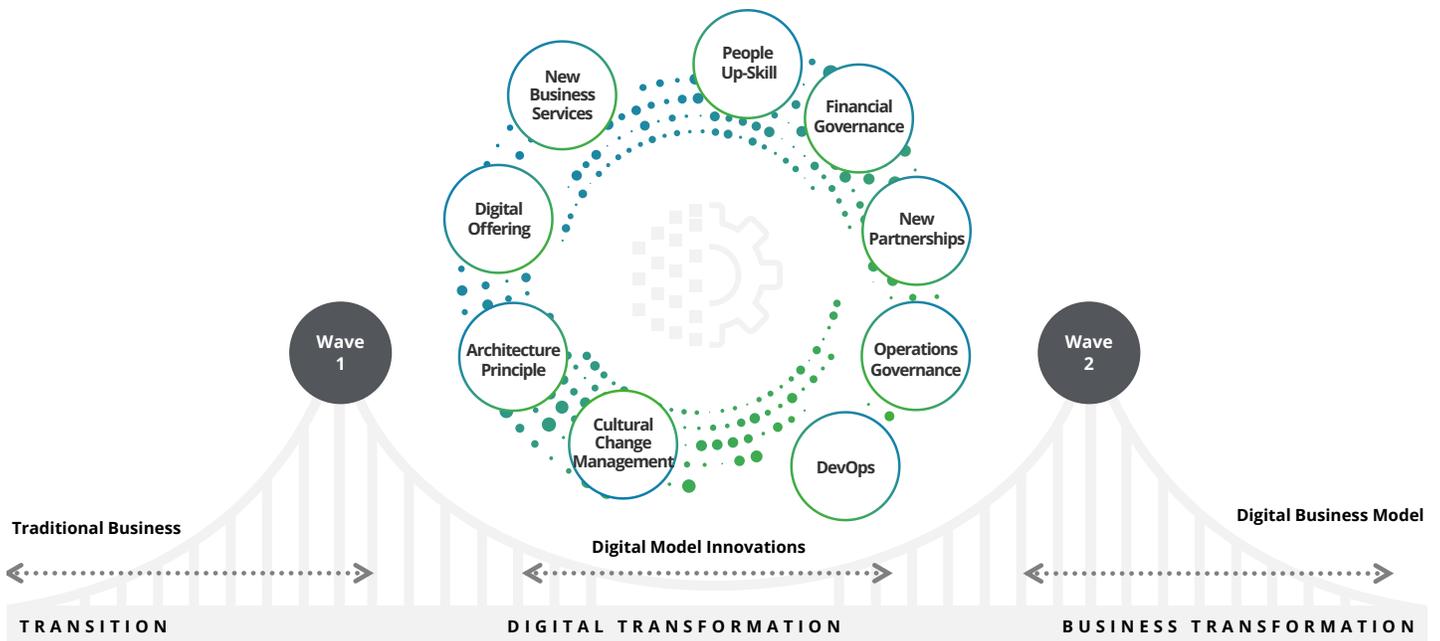

A platform approach to modern application transformation, architecture, and operations

Evolve from Digital Transformation to Business Transformation

Sometimes the industry buzz makes it feel like digital transformation should be your end goal, but if it doesn't lead to *business transformation*, your organization is falling short of its true potential. The needed programs, technology, process reengineering, and of course cultural shift, can be too big of a mountain to climb.

Deloitte and VMware can help you elevate your transformation goals to business-level heights, helping you put the right platforms in place to accelerate, optimize, and secure your journey to business transformation.

By leveraging VMware Tanzu, we can help you with:

Business Transformation

We provide the guidance and best practices plus technology and platform recommendations to help accelerate app modernization, digital transformation, cloud transition, and a cybersecurity-first journey.

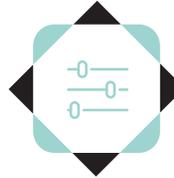

Rapid Business Portfolio Modernization

We can help modernize your business-critical portfolio of apps by bringing the velocity and strategy to transform, rewrite, or rearchitect applications to empower your business with digital and enhance customer excellence.

Managing Existing Business Technology

We can help manage legacy applications and platforms that can't modernize and help forge a path to cloud through lift and shift, containerization, and multi-cloud.

Catalyze Business Transformation with Deloitte and VMware Tanzu

 <p>Business Business transformation is in its peak to grow business with existing and new revenue</p>	 <p>Business Operations Portfolio modernization is the key to achieve customer excellence and real-time decision making</p>	 <p>Application Modernization Achieve application modernization with less investment, more ROI, and accelerate time to market</p>	 <p>Distributed Platforms Adoption Reduce complexity and simplify platform modernization with less change management and asset lifecycle management</p>	 <p>IT Service Delivery and Operations Excellence Streamline operations with automation and improved visibility and control across environments</p>
