

Multi-Cloud Solutions

Multi-Cloud Is the Way. Is Your Path Clear?

Innovation and modernization have created a complex, distributed IT landscape with a proliferation of clouds and edges. Creating a smooth transition to multi-cloud operations usually requires some help.

- Growing diversity and complexity
- Security risks
- High cost to refactor apps
- Inconsistent infrastructure and no centralized visibility and control
- Increasingly specialized skills, tools

Deloitte and VMware Accelerate Your Journey

Multi-cloud is an essential enabler for innovation and application modernization. Deloitte and VMware can help take the complexity and risk out of multi-cloud strategies, helping to create an accelerated path to cloud that's flexible, scalable, secure, and designed to simplify operations to optimize how you run IT. By working with Deloitte and VMware you can increase choice and flexibility to accelerate time-to-value and make the most of your cloud potential.

Deloitte services can help you:

Vacate the Data Center

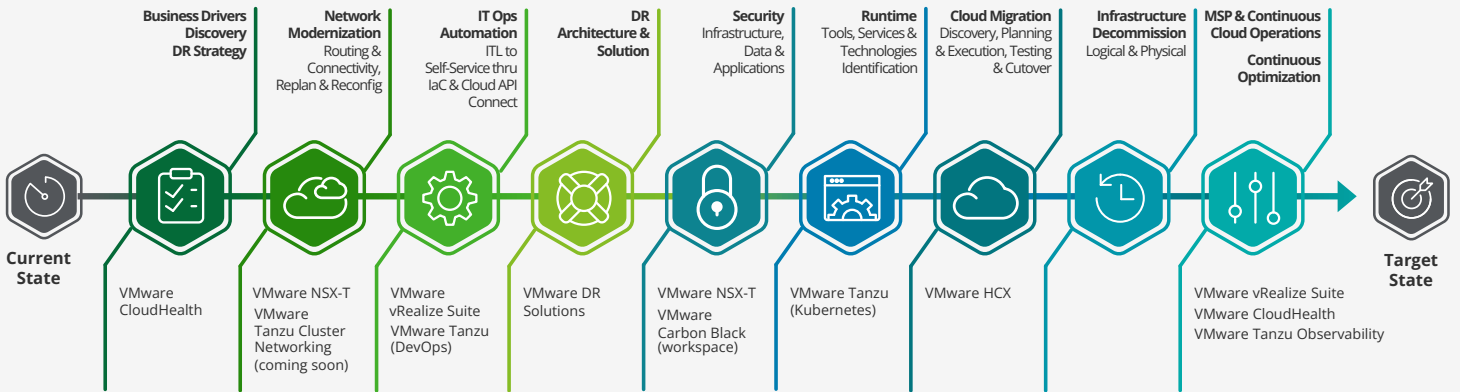

It's not just about doing cloud right. We help you maintain operations in the transition and smartly decommission the drawdown of data center resources so you can cut costs as quickly as possible.

Modernize with Cloud

We help you to take full advantage of a consistent, modernized infrastructure across data centers and clouds that promotes transparency, automation, and innovation at scale.

De-Risk Cloud

Our paved paths to cloud include integrated security, improved visibility, and control. We collaborate to understand compliance and governance requirements, and to minimize risk and application downtime.
