

Still want to be a data scientist? These qualities and skills may serve you best.

Data science was recently named the sexiest job,¹ and it's still a hot pick on the career front. Even the President has his own data czar now. As competition among those vying for future analytics positions increases, it's good to know the qualities and skills organizations expect their analytics talent to possess. During our [Twitter chat](#), we asked how universities are stepping up to fill the need for analytics talent. The chat revealed a laundry list contributed by experts in academia and business:

Want to learn more?

About Deloitte

Deloitte refers to one or more of Deloitte Touche Tohmatsu Limited, a UK private company limited by guarantee (“DTTL”), its network of member firms, and their related entities. DTTL and each of its member firms are legally separate and independent entities. DTTL (also referred to as “Deloitte Global”) does not provide services to clients. Please see www.deloitte.com/about for a detailed description of DTTL and its member firms. Please see www.deloitte.com/us/about for a detailed description of the legal structure of Deloitte LLP and its subsidiaries. Certain services may not be available to attest clients under the rules and regulations of public accounting.
