Deloitte Center for Energy Solutions

About the Deloitte Center for Energy Solutions

The Deloitte Center for Energy Solutions (the “Center”) provides a forum for innovation, thought leadership, groundbreaking research, and industry collaboration to help companies solve the most complex energy challenges.

Through the Center, Deloitte’s Energy & Resources group leads the debate on critical topics on the minds of executives—from the impact of legislative and regulatory policy, to operational efficiency, to sustainable and profitable growth. We provide comprehensive solutions through a global network of specialists and thought leaders.

With locations in Houston and Washington, DC, the Center offers interaction through seminars, roundtables, and other forms of engagement where established and growing companies can come together to learn, discuss, and debate.

Deloitte Center for Energy Solutions Naturally resourceful

Conferences and Seminars

Deloitte Energy Conference

Dedicated to providing clients and the energy industry with insights on emerging topics, Deloitte brings together energy executives, researchers, entrepreneurs, investors, and regulators from around the globe for an in-depth analysis of key developments and challenges facing today’s global and domestic energy markets.

Deloitte Alternative Energy Seminar

The Deloitte Alternative Energy seminar examines the future of alternative energy. Discussions at the seminar underscore the growing role alternative energy must play if America is to address climate change and energy security.

Deloitte Oil & Gas Conference

Committed to providing clients and the oil and gas industry with insights on timely topics, Deloitte offers this annual conference for oil and gas executives and leading industry experts to share their views on important issues facing the global oil and gas industry.

Deloitte Energy Accounting, Financial Reporting, and Tax Update

At this one-day seminar, Deloitte’s energy specialists focus on industry technical accounting and tax issues to assist participants in preparing for calendar year-end accounting, reporting, and tax requirements. Participants may choose either an Accounting and Financial Reporting Update or a Tax Update.

Deloitte Energy Transacting Accounting

At this one-day seminar, Deloitte’s energy specialists provide participants with an overview of complex accounting and valuation considerations associated with transactions in existing and evolving energy and commodity markets. The course provides an overview of current market dynamics, trends, and risk factors present in today’s energy markets.

Deloitte Center for Energy Solutions

Energy tops the agenda for governments and businesses around the world. Fluctuating demand, evolving supply, volatile commodity prices, and changing regulatory environments are a few of the critical issues contributing to the complexities of today's energy industry. Companies must navigate through this environment to achieve sustainable, profitable growth.

The Deloitte Center for Energy Solutions provides comprehensive insights and services to help companies meet their goals of sustainable, profitable growth through several means:

- Providing a forum for industry executives to discuss the latest trends and issues
- Creating dialog between policy makers and industry leaders
- Sharing ideas and best practices from within the energy industry and from other industries affected by energy challenges
- Leveraging state-of-the-art videoconferencing facilities for presentations from Deloitte subject matter advisors around the world on topics that matter to the global energy industry
- Bringing together Deloitte energy industry professionals across disciplines—audit, tax, consulting, and financial advisory services—to develop and deliver comprehensive solutions and services to help our clients solve their most complex challenges
- Establishing alliances and partnerships with organizations that deliver value to the energy industry
- Delivering research from Deloitte, and in some instances, a combination of Deloitte and academic organizations on topics relevant to the industry
- Providing industry insights through annual industry conferences

Collaboration with our clients to best understand their needs is at the core of our approach to solutions and services in the Deloitte Center for Energy Solutions.

Executive team

John England

Vice Chairman and US Oil & Gas Leader
jengland@deloitte.com
@JohnWEngland

John England serves as vice chairman and US Oil & Gas leader for Deloitte LLP. In this role, he helps oil and gas companies solve their most complex challenges, while also overseeing the significant investment Deloitte is making in their Oil & Gas practice. Most notably, he leads Deloitte's overall delivery of a broad range of cross-spectrum professional services, from technology integration and operational consulting to human capital offerings and tax services, as well as financial advisory offerings and attest services. John has led successful projects and client relationships at some of the largest energy companies over his 26-year career with Deloitte.

John McCue

Vice Chairman and US Energy & Resources Leader
jmccue@deloitte.com
@JMcCue624

As vice chairman and US Energy & Resources leader, Deloitte LLP, John's responsibilities center on the coordination of Deloitte's professional services to energy and utility companies in the United States. He is an energy industry specialist, having served the industry for more than 30 years. John has significant experience in the energy and utility industries, spanning the electric, gas, water, and exploration and production industry segments. John is a frequent speaker on strategic industry topics including growth and new business development, industry restructuring, scenario and investment analysis, and mergers and acquisitions.

Marlene Motyka

US Alternative Energy Leader
mmotyka@deloitte.com

Marlene Motyka is the US Alternative Energy leader for Deloitte and a principal in the Valuation Services practice of Deloitte Transactions and Business Analytics LLP. In her role, she guides Deloitte's overall delivery of a broad range of cross-spectrum professional services—including tax-related issues, mergers and acquisitions and financing activities, business strategy, and valuation, as well as accounting, technology integration/operational consulting, and human capital offerings—to alternative energy companies, and those who invest in alternative energy.

Annette Proctor

Operations Director, Deloitte Center for Energy Solutions
amproctor@deloitte.com
@ProctorAMP

Annette Proctor is the operations director for the Deloitte Center for Energy Solutions, Deloitte Services LP. In her role, Annette works closely with the Center and extended Energy & Resources team to support the development of thought leadership and service offerings, differentiating Deloitte more effectively in the marketplace.

Andrew Slaughter

Executive Director, Deloitte Center for Energy Solutions
anslaughter@deloitte.com

As executive director for the Deloitte Center for Energy Solutions, Deloitte Services LP, Andrew works closely with Deloitte's Energy & Resources leadership to define, implement, and manage the execution of the Center strategy; develop and drive energy research initiatives; and manage the development of the Center's eminence and thought leadership. During his 25 year career as an oil and gas professional, he has occupied senior roles in both major oil and gas companies and consulting/advisory firms providing insights and strategic analysis to the industry.
