# The security environment is evolving

## **The business and information technology environment is changing...**

- New business models—cloud, mobile
- Regulatory changes with SEC rules, state and country laws, industry regulation, emerging NIST standards, and more

## **..Leading to new, persistent, evolving risks**

- More frequent, sophisticated, and malicious attacks
- Wide range of motives: economic, campaigns, hacktivists
- C-suite, board, and key staff are sitting targets

## **Organizations are struggling to keep pace**

- Risks are evolving faster than companies can react
- Many companies, large and small, do not have the skills in-house
- Boards and management are struggling with how to “measure” cyber risk

# Role of the U.S. government in addressing cyber threats

- How the government shares information
- The SEC's Office of Compliance Inspections and Examinations Risk Alert, 4/15/14
- The 2014 Cybersecurity Executive Order
  - Affects 16 critical infrastructure sectors
  - Released February 12
  - Voluntary adoption
