Next Generation CFO Academy

Start ahead
Our Next Generation CFO Academy is a unique, often career-changing experience that helps prepare promising finance executives for a future CFO role. Attendees are nominated by their organization’s current CFO with the goal of developing leadership potential in rising finance professionals. The Academy provides a highly experiential curriculum and unparalleled networking opportunities.

Preparing future CFOs
Today’s CFOs serve in a far greater capacity than the support role they once did. Finance permeates every aspect of businesses, and CFOs are key decision-makers, leaders in their organizations who are held to high standards—and are expected to set high standards. For new CFOs to take the reins successfully on day one, early preparation is essential.

Build new relationships and skills for success
The Academy experience is framed around three pillars of CFO success: leadership, influence, and competence. Delivered over three days, the Academy curriculum is both intense and thorough, providing executives with an opportunity for preparation, self-reflection, and hands-on planning related to key aspects of the CFO agenda.

The faculty is uniquely positioned to deliver the curriculum, offering attendees decades of firsthand experience from C-suite executives, analysts, ratings agency executives, authors, university professors, attorneys, and senior Deloitte partners.

The Academy provides participants with an opportunity to build meaningful relationships with peers from similarly sized organizations across industries and geographies. Many cohorts remain connected and attend Academy II sessions, which dig deeper into investor relations and can help be a stronger leader and influencer.

CFO Peer Circles

An open exchange of ideas
Deloitte’s CFO Peer Circles program provides a way for CFOs to get connected, and stay connected, with peers across the country, regardless of geographic location. In these “circles,” CFOs drive the agenda, discussing the toughest challenges they face. This safe environment allows for an open exchange of ideas and problem solving with access to thought leaders who can enhance discussions on topical issues. The resulting conversations can be among a CFOs most valuable resources.

Peer Circles can be convened in both live and virtual environments depending on the preferences of the group, and they can be aligned by industry, public/private CFOs, or those convening around a specific challenge.

Deloitte’s role in these peer circles is simply to facilitate the meetings and provide resources to support the meeting agenda. Sessions can cover a variety of topics on the CFO agenda ranging from technology disruption and the global economy to the changing talent landscape, risk management, sustainability, and finance transformation, among many others. By design, these peer circles provide ample time for networking and sharing of insights and potential solutions to pressing challenges.
