Unlocking Success in your Ways of Working

74% of workers believe leaders should do more to address the root causes of worker burnout, emphasizing the need for customizable solutions as a strategic imperative.

71% of workers report that work-life integration increased when working from anywhere. This means organizations must establish a new set of norms.

65% of all respondents reported an increase in the number of hours worked per day in hybrid work, which has led to burnout.

Research shows that one third of employees innovate best in the office, a third working from anywhere, and a third working in a hybrid format.

Flexibility is the key to successful Ways of Working in critical aspects of your organization.
