

## SUSTAINABILITY IN THE PUBLIC SECTOR

We believe this is the time for **thoughtful, strategic, and human-centered action**, while helping organizations understand how to put what is good and equitable for people and planet at the core of business decisions to advance a prosperous and sustainable future.

Sustainability, Climate, and Equity are also at the forefront for the Public Sector. For example, the [Inflation Reduction Act \(IRA\)](#), [Infrastructure Investment and Jobs Act \(IIJA\)](#) and the [CHIPS and Science Act](#) reflect the Public Sector's desire to:

Invest in climate and clean energy initiatives	Rebuild American Infrastructure and strengthen the semi-conductor industry	Focus on addressing resiliency to climate events	Promote job growth, workforce development, and equity
--	--	--	---

Deloitte is positioned to help Public Sector clients achieve their goals, support the public good and shape a future that centers around people, planet and prosperity.

## OUR SOLUTIONS

We focus on sector-specific challenges, building on strengths from Deloitte's core capabilities, and extending into sustainability, climate and equity-specific services, including:

 <b>Decrease the negative environmental impact</b> of communities on the path to net zero by creating actionable steps towards achieving emissions reduction targets.	 Focus on <b>nature services</b> by mitigating the impact of climate change on supply chains and increased diversity of suppliers and partners.
 <b>Activate equity</b> within and beyond public sector organizations through equitable outcomes with data-driven and human-informed interventions.	 Navigate the challenge of <b>aging and changing infrastructure</b> through creative new paths to net zero, ESG assessments and strengthened operational resiliency and governance.
 Build and manage <b>responsible value chains</b> through decarbonization, ESG assessments, as well as through improved traceability and transparency.	 Help understand which physical assets and key operations are at risk of extreme weather events, quantify the cost of inaction, and <b>provide project prioritization and investment decision support</b> that maximizes value for money.

## WHAT SETS US APART

- ### Our Values

Deloitte is committed to addressing Sustainability, Climate and Equity challenges through policies, practices, operations and actions across all aspects of our business. Our **purpose-driven mindset** unites and empowers our professionals to make responsible climate choices at home and at work.

### Who We Are

Our team is comprised of professionals that implement strategic and human-centered solutions across the Civilian, Defense, Federal Health, and State, Local and Higher Education sectors. More specifically, our team is **comprised of climate and sustainability experts coming from the White House, USAID, U.S. Department of State, United Nations, U.S. Environmental Protection Agency, U.S. Department of Housing, National Geographic, the Nature Conservancy, and many more government, non-profit, and commercial organizations.**
- ### Our Alliances & Technology Connections

We work with leading technology organizations on scalable and tailored solutions that address complex challenges and meet new market needs. Globally, we have **built 70+ sustainability-related assets and rounded our capabilities with dozens of strategic alliances** spanning across:

<b>ESG Specialists</b> focused on ESG issues/capabilities	<b>AI/Data Specialists</b> computing and combing large data sets	<b>Platform Integrators</b> streamlining processes and workflows	<b>Function-specific Leaders</b> innovating solutions	<b>ERP Providers</b> automating core business operations	<b>Hyperscalers</b> providing cloud services at scale
--	---	---	--	---	--

### Our Marketplace Relationships

Our extensive network allows us to collaborate across sectors, industry, and geography and provide a holistic approach to addressing sustainability efforts, the climate crisis and equity.

**4 Spotlight: Climate Innovation Collaboratory** 

Our Climate Innovation Collaboratory expands public sector access to critical climate data science, data analytics and applied research, and encourages the exchange of information to help public sector clients deploy innovative climate solutions.

### Our Thought Leadership

Deloitte is taking an active presence in the marketplace, publishing 25+ eminence pieces (including WSJ) and speaking at major sustainability-related engagements across the country.
- ### 5 Conference Spotlight: Aspen Ideas Festival 2023

Sustainability, Climate and Equity leaders from across our firm participated in several speaking opportunities, with a focus on driving thoughtful conversations around decarbonization, the business case for sustainability, the promise of hydrogen, climate resiliency, and circularity.
