

TMA Program Communications ALERT

ALERT 15, FY18 – August 8, 2018

SUBJECT: Contract Access Fee Reduction for HCaTS Contracts

Dear Strategic Partners,

We are providing evidence that we have heard you!

We're excited to share that GSA has announced that we are lowering the Contract Access Fee (CAF) for the HCaTS contracts from 2 percent to 0.75 percent, effective August 1, 2018. By lowering the fee, we will make the contracts more competitive and allow federal customers to better utilize the human capital and project management expertise of the Training and Management Assistance Program team and GSA's contracting expertise by accessing this best-in-class solution.

"The HCaTS contracts were envisioned to support agencies in meeting complex people management challenges, including agency restructuring and reshaping," said OPM Director Jeff T.H. Pon. "The reduced CAF removes a cost barrier of the HCaTS contracts, which provides a strong incentive for Federal agencies to use them to gain access to world-class industry partners, the human capital expertise of OPM, and the acquisition expertise of GSA."

We appreciate your patience as we have worked successfully with GSA to lower the CAF. Please share this exciting news with your customers and prospects as we work together to bring Fiscal Year 2018 to a successful close!

Thank You,

The HCaTS Team
