

Deloitte:

The right partner on GSA Alliant

Deloitte and GSA Alliant

At Deloitte, we understand the importance and value of establishing a viable long-term strategic partnership with a proven leader in the government IT community. No one can do it alone in this rapidly changing marketplace.

Alliant's contract scope is aligned with Federal Enterprise Architecture (FEA) and Department of Defense Enterprise Architecture (DoDEA), which encompass various components of an integrated IT solution, including new emerging technologies.

Under GSA Alliant, the largest Government Wide Acquisition Vehicle (GWAC) ever issued, Deloitte can help you implement effective solutions that meet performance measures while maintaining costs and streamlining operations. Through Alliant, we can provide a wide range of services that are designed with both performance and compliance in mind.

GSA's Alliant contract vehicle allows government agencies to work hand-in-hand with Deloitte, a top federal contractor with experience serving all 15 cabinet level departments and a longtime trusted government advisor.

Deloitte and GSA Alliant

Alliant Supports Enterprise IT Programs

Infrastructure Services

These services provide the foundation by which IT systems and applications can be developed and executed, as well as how they interact. They encompass hardware, software licensing, technical support and warranty services, as well as maintenance and technology refreshments.

IT Management Services

Our IT management services include strategic planning, management and control functions necessary for efficient operations and IT services that meet federal requirements. They support government lines of business initiatives, the FEA/DoDEA Performance Reference Model (PRM) and Business Reference Model (BRM), as well as their functions and service components.

Application Services

Application services provide support for all applications and collaborative services capabilities, including support for developing and implementing enterprise and departmental-level applications. Services include those provided for cross-agency activities as well as operations that are unique to a single agency.

Ancillary Support

This includes any other necessary and integral services used in the development and implementation of an IT solution. Items such as clerical support, server racks, construction and repair are included in this category. Tele-communications and wireless communications are also covered within ancillary support.

Our Team

Given the complexities of meeting today's program and mission goals, agency leaders — now, more than ever — must establish strong, long-term working relationships with industry leaders. In addition to large businesses, we also work with a robust team of small businesses that span all socio-economic categories to assist you in meeting your small business targets. These businesses — which encompass 40 labor categories — are top performers in their fields and provide a full range of infrastructure, application, IT management and ancillary services.

With our flexible, collaborative and innovative approach, Deloitte's management solutions and enterprise integration services help clients cut costs and streamline operations while mitigating risk. And we have global reach, with Deloitte professionals spread throughout the United States and abroad we bring valuable experience and fresh perspective to all we do.

Putting procurement to work for you

Improving Effectiveness

Through GSA Alliant, the Deloitte team helps government agencies improve effectiveness by:

-  Providing integrated IT solutions that satisfy evolving needs
-  Improving service continuity
-  Supporting the President's Management Agenda
-  Complementing other GSA contracts
-  Improving adequate competition to meet Congressional requirements
-  Sustaining access to exceptional solutions
-  Improving program performance mitigating risk through our Earned Value Management System (EVMS) capabilities

Alliant was created for enterprise-wide IT implementations and was designed to handle current as well future challenges to IT acquisition and implementation, whether from technology advancements and issues, governmental policy, or budget and cost concerns

Alliant offers a comprehensive array IT solutions, including hardware, software, communications and services. It accommodates federal guidelines regarding enterprise architecture and other standard protocols. In terms of cost, Alliant will help you achieve savings and maintain your budget through aggressive pricing and competitive sourcing with a wide variety of vendors. Also, Deloitte imposes no limits on the size of individual task orders.

Challenging agency missions and a growing reliance on IT have increased the demand for management solutions and enterprise integration and services. Deloitte services, provided through Alliant, can help you implement cost-efficient, effective solutions that meet performance measures and mission objectives.
