

Introducing CyberSphere™

Your suite of cyber solutions, simplified.

In an ever-evolving threat landscape, CyberSphere is a vendor-neutral integrated platform aimed at streamlining cybersecurity management. One hub. One source for your data management, automation, and AI integration. CyberSphere tackles complexity while helping you boost operational efficiency. Or to put it simply—we're putting the power of cyber in your hands.

Your single-point-of-entry security platform

CyberSphere aims to transform cybersecurity by uniting solutions and tools for the first time. Enhanced by Deloitte's services and an ever-growing ecosystem of innovators, our evolving solution suite includes:

Game-changing benefits:

- Simplifies decision-making with a curated, streamlined experience across your suite of solutions
- Unites dozens of collaborators with its vendor-neutral platform, reducing vendor and alert fatigue
- With AI and machine learning, assesses millions of inputs across your cybersecurity footprint and across industries
- Visualizes and quantifies risk and tailors the environment from a spend and posture perspective
- Aligns with your vendor consolidation efforts without sacrificing an efficient buying approach
- Facilitates your ability to adopt innovative new use cases for high-impact emerging technologies
- Provides greater cost savings and operational efficiencies through more control and integration of multiple cyber capabilities
- Faster time to value through accelerated procurement and deployment processes

Bolstering your business with CyberSphere

CyberSphere provides a custom, simplified experience across your suite of solutions. This tailored approach promotes ease of use, streamlining the inherent complexity under the hood. Enabled by Deloitte specialists and vendor-neutral, integrated technology, CyberSphere can help organizations remain agile and free up time, money, and resources for more strategic efforts.

“Our clients have told us that as their organizations’ cyber programs grow, they need help reducing complexity and increasing the ease with which they can leverage advanced tech, hone programmatic strengths, shore up weaknesses, and report to key stakeholders.”

– [Emily Mossburg](#), Deloitte Global Cyber Leader
