

## Deloitte Chief Learning Officer Forum 2018

### Learning undone

Sometimes, you have to unlearn what you've been doing in order to reinvent how you're doing it. As the future of work becomes the present, we know this much is true: In a world where technology is increasingly important to our everyday lives and work, the human element has never mattered more. We invite you to travel with us on the arc toward a collective digital future. Join us at the 7th Annual Chief Learning Officer Forum to reimagine learning.

#### Our peer-to-peer discussion will cover:

##### UNLEARN

- Undo the way we approach standard social contracts
- Deconstruct traditional talent structures
- Break down learning delivery
- Decommission rigid systems
- Unravel traditional methods of skill acquisition
- Free learners from traditional platforms

##### RELEARN

- Realize the power of the mobile, open, and augmented workforce
- Explore implications for culture and leadership
- Create a cognitive advantage
- Rewire organizational DNA to incorporate digital traits
- Rebuild the flow of work
- Reinvent human-centric processes

##### Rendezvous

This invitation-only event brings together learning executives, innovators, technologists, intrapreneurs, and thought leaders who are forging a human-centered path toward the future of work.

##### Remember

The event begins Wednesday, March 14, 2018, at 4:30 p.m. CT and concludes Friday, March 16, 2018, at 1:00 p.m. The event will be hosted at Deloitte University in Westlake, TX.
