Shape your culture.
Drive your strategy.

The Power of Culture

In a 2015 survey of 3,300 executives in 106 countries, top managers said culture is the most important issue they face – more important than leadership, workforce capability, performance management, or anything else. ¹

Whether an organization is undergoing a strategy change, integrating after a merger, responding to a regulatory environment, or pursuing and retaining critical talent, culture is at the crux of the change.

Culture is derived from business leaders, and sustained through actions and behaviors. Culture is a powerful competitive advantage, but it can also destroy value if it is not aligned with strategy and adapted to changes in the business environment.
