

Deloitte.

Technology Fast 500™

Powerful connections

2013 ranking of the fastest growing
technology based companies in North America

About Deloitte's Technology Fast 500™

About Deloitte's Technology Fast 500™

The Deloitte Technology Fast 500™ is the pre-eminent technology awards program in North America (U.S. and Canada) with 2013 being its nineteenth anniversary. Combining technological innovation, entrepreneurship and rapid growth, Fast 500™ companies — large, small, public, and private — span a variety of industry sectors, and are leaders in hardware, software, telecom, semiconductors, life sciences, and clean technology. These companies are on the cutting edge and are transforming the way we do business.

Selection and qualifying criteria

Technology Fast 500™ provides a ranking of the fastest growing technology, media, telecommunications, life sciences and clean technology companies — both public and private — in North America (U.S. and Canada). Technology Fast 500™ award winners for 2013 are selected based on percentage fiscal year revenue growth during the period from 2008 to 2012.

In order to be eligible for Technology Fast 500™ recognition, companies must own proprietary intellectual property or technology that is sold to customers in products that contribute to a majority of the company's operating revenues. Companies must have base-year (2008) operating revenues of at least \$50,000 USD or CD, and current-year (2012) operating revenues of at least \$5 million USD or CD. Additionally, companies must be in business for a minimum of five years, and be headquartered within North America.

This ranking is compiled from nominations submitted directly to the Technology Fast 500™ Web site, and public company database research conducted by Deloitte LLP.
