

Turning Listening Into Action

at the World's Largest Manufacturer of Musical Instruments

Then → now

5 years

STEADY CONTACT CENTER IMPROVEMENTS

- Deployed Salesforce to maintain 16 million contacts
- Streamlined processes
- Established hand-off process for social media issues

But more Improvements Needed!

Silos that impeded access to customer-related data
Good-bye, painful hodge-podge!

Contact Center Staff out of the company's social media loop

A Service Desk environment that offered limited viewing of customer data, records and cases

Customers who sometimes experienced delays, and employees who were frustrated

7 weeks

RAPID TRANSFORMATION

Addressed 40 issues and requirements with help from Deloitte, enabling:

- Better customer engagement
- Greater collaboration
- Increased productivity

A single system combining traditional customer and social data profiles

Hello, one consolidated record!

A responsive team using Salesforce Chatter to resolve customer problems faster

A user interface with simplified, automated workflows so reps can see more pertinent data on screen

Happier customers and happier employees
