

## Investing in the Middle East Business Process Solutions (BPS)

The Middle East is a developing and dynamic hub for investment. It has been the global leader in the oil and gas industry for many years impacting the entire region. It is also very well positioned vis-à-vis other countries. It has some of the least demanding tax systems in the world which makes the region even more attractive for foreign investors. In addition, several Middle Eastern countries provide incentives for foreign investments, favorable business regulations and ease of doing business.
