PPPFA 90/10 Deriving value for public contracts

About the Forum:

South Africa's infrastructure needs continue to grow, but with only 26% of total capital investment for public infrastructure coming from the private sector, calls for them to increase their level of investment are mounting. For the private sector to take up more of these projects in a competitive environment where margins on tenders are narrowing, the current methodology in Preferential Procurement Policy Framework Act (PPPFA) needs to balance the technical assessment criteria of a tender with pricing considerations to deliver the best value for money.

Speakers:

- J-P Labuschagne, Infrastructure Leader, Deloitte
- Lerato Sithole, Supply Chain Partner, Deloitte
