

CFO Forums

Stay ahead

There is no better way to stay current on important issues than by participating in our CFO Forums. Offered in scores of cities in selected Pan-African countries, CFO Forums provide a unique opportunity for CFOs to network with peers, explore challenging issues and share leading practices.

CFO-driven. CFOs drive the agenda to discuss and respond to the toughest challenges they're facing, which we establish through our CFO surveys in Pan-Africa.

Peer-to-peer connections. CFOs across diverse industries share common challenges. That is why CFO Forums set aside time for networking. Participants say this interaction is one of their favourite parts of the forum experience.

Up-to-the-minute issues. CFO Forums cover content ranging from strategic intent, cash flow and investment priorities, political and business risk factors, growth opportunities in Africa, and more.
