## Safeguarding duties against the increased imports of cold-rolled steel products

ITAC has concluded an investigation into safeguarding duties against increased imports of cold-rolled steel products which is causing material injury to the domestic market. The final determination is as follows:

- Safeguarding duties to be levied on imports of specific cold-rolled steel products classifiable within tariff heading 7208, 7211, 7225 7226
- No additional protection will be applied to tariff subheadings 7209.15, 7209.16, 7209.17, 7209.18, 7225.50 and 7226.92 as no price suppression was identified by ITAC when comparing the domestic price for the affected commodities with the landed price of the imported products.

The duties will be levied at 12% and reduced by 2% annually for the next 2 years.

## Continuance of anti-dumping duty on unframed glass mirrors originating in or imported from Indonesia

A sunset review initiated by ITAC in respect of anti-dumping duties on unframed glass mirrors, originating in or imported from Indonesia, has been concluded. The decision has been taken to maintain the protective duties on clear float.
