

# Toward the *social* enterprise

Key findings from the Deloitte 2018 *Global Human Capital Trends* survey

## Respecting the power of the individual

Organizations face some challenges as they revamp their approach to workforce management, rewards systems, and career models.

## The symphonic C-suite

Respondents who indicate their C-suite executives **regularly collaborate on long-term interdependent work**

are a third more likely (**34%**) to expect 10 percent growth or more in the next year than respondents whose CxOs operate independently.

## Filling society's leadership vacuum

A focus on citizenship can yield rich opportunities to build social capital and become a leading voice on societal issues.

## Leveraging technology for sustainable growth

New technologies can help lift productivity and performance, but organizations must also pay attention to their impacts on the workforce as a whole.
